Appendix 3.1 Environmental Mitigation Implementation Schedule
Appendix 5.1 Landscape Establishment Monitoring Checklist

Appendix 6.1 Complaint Log

#### **EXECUTIVE SUMMARY**

- i. This is the 9<sup>th</sup> Environmental Monitoring and Audit (EM&A) Monthly Report May 2023 as referred to the approved EM&A manual under the approved EIA report for the Agreement No. CE52/2007(HY) for the entrusted landscape works under Environmental Permit no. EP-354/2009/D, presenting the environmental monitoring findings and information recorded during the period of 01 May 2023 to 31 May 2023.
- ii. In the reporting period, the work activities conducted for the establishment period of the entrusted landscape works are as follow:
  - Pruning, watering, weeding, shrubs replacement

#### EM&A activities for the reporting period

- iii. The EM&A programme was carried out in accordance with the contract specific EM&A Manual requirements, no air quality, noise, water quality, ecology, cultural heritage and landfill gas monitoring was required for the contract.
- iv. With the completion of all the entrusted landscape works associated with the interface areas between Contract No. HY/2012/07 and DC/2016/01 along a section of Cheung Tung Road certified by the Project Manager's Delegate under Contract No. DC/2016/01 in mid-July 2022, the 24-month landscape establishment period was proposed for commencement on 14 July 2022 as per the joint inspection with HyD, IEC and ET.
- v. v. No landscape establishment monitoring was conducted in this reporting period

#### Complaints, Notifications of Summons and Successful Prosecutions

vi. No environmental complaint, notification of summons and successful prosecution regarding the construction works was recorded in the reporting period.

#### **Reporting Changes**

vii. No changing circumstances requiring alterations to the EM&A programme were made in the reporting period.

#### Future Key Issues

- viii. In coming reporting 2 months, the scheduled construction activities for the establishment period of the entrusted landscape works are listed as follows,
  - Watering, weeding, tree replacement
- ix. Quarterly monitoring for 24-month establishment period has been commenced starting from October 2022 as notified in August 2022 via the submission of the contract specific EM&A manual to EPD.

#### 1 Introduction

#### 1.1 Scope of the Report

- 1.1.1. Lam Environmental Services Limited has been appointed by Penta-Ocean Wo Hing Joint Venture (hereinafter referred to as "Contractor") to undertake the Environmental Monitoring and Audit (EM&A) works for the Additional Entrusted Landscape Works under Contract no. DC/2016/01 (Hereafter referred as "the entrusted landscape works").
- 1.1.2. As referred to the approved EM&A manual under the approved EIA report for the Agreement No. CE52/2007(HY) for the entrusted landscape works under Environmental Permit no. EP-354/2009/D, a contract-specific EM&A manual has been submitted to the Environmental Protection Department (EPD) and accepted for commencing EM&A programme for the establishment period of the entrusted landscape works.
- 1.1.3. This is the 9<sup>th</sup> Monthly EM&A Report May 2023 of the entrusted landscape works, presenting the environmental monitoring findings and information recorded during the period of 01 May 2023 to 31 May 2023.

#### 1.2 Structure of the Report

- **Section 1** *Introduction* details the scope and structure of the report.
- **Section 2** *Project Background* summarizes background and scope of the project, site description, project organization and contact details of key personnel during the reporting period.
- **Section 3 Status of Regulatory Compliance** summarizes the status of EM&A implementation, valid Environmental Permits / Licenses during the reporting period.
- **Section 4** *Monitoring Programme* summarizes all monitoring requirements, monitoring locations, monitoring frequency, and respective event and action plan and monitoring programmes.
- **Section 5** *Monitoring Results* summarizes the monitoring results obtained in the reporting period.
- Section 6 Complaints, Notification of summons and Prosecution summarizes the cumulative statistics on complaints, notification of summons and prosecution
- Section 7 Conclusion

#### 2 Project Background

#### 2.1 Background

- 2.1.1. The entrusted landscape works associated with the interface areas between Contract No. HY/2012/07 and DC/2016/01 along a section of Cheung Tung Road form part of landscape mitigation measures as recommended under the approved EIA report (Register No.: AEIAR-146/2009). A Landscape and Visual Plan (LVP) has been submitted under Condition 2.9 of Environmental Permit EP-354/2009/D and approved by EPD.
- 2.1.2. Locations and planting schedule of entrusted landscape works are showed in <u>Figure 2.1</u>, <u>Figure 2.2</u> and <u>Figure 2.3</u> respectively.

#### 2.2 Project Organization and Contact Personnel

- 2.2.1 Highways Department is the overall project controllers for the Project. For the construction phase of the Project, Project Engineer / Supervisor, Contractor(s), Environmental Team and Independent Environmental Checker are appointed to manage and control environmental issues.
- 2.2.2 The project organization and lines of communication with respect to environmental protection works are shown in <u>Figure 2.4</u>. Key personnel and contact particulars are summarized in **Table 2.1**:

Table 2.1 Contact Details of Key Personnel

| Party                                 | Role                                      | Post  | Name                    | Contact<br>No. | Contact<br>Fax |

#### 2.3 Work Activities

2.3.1 In the reporting period, the work activities conducted for the establishment period of the entrusted landscape works are as follows,

- Pruning, watering, weeding, shrubs replacement
- 2.3.2 In coming reporting 2 months, the scheduled construction activities for the establishment period of the entrusted landscape works are listed as follows,
  - Watering, wedding, tree replacement

#### 3 Status of Regulatory Compliance

#### 3.1 EM&A Implementation under the Project

3.1.1. As per the a contract-specific EM&A manual submitted to and accepted by EPD, the monitoring and audit requirements of the environmental aspects of the EM&A programme for the establishment period of the entrusted landscape works are summarized in the sub-sections below,

#### Air Quality

3.1.2. Scopes of the entrusted landscape works do not involve any of works listed under Section 4.4.1.1 of the approved EIA Report. Vehicles travel under this contract was carried out in paved area. Therefore, fugitive dust emission from the contract would be limited and no unacceptable air quality impact would be expected and no specific monitoring and mitigation measures would be required.

#### **Noise**

3.1.3. Most of the works under the entrusted landscape works would be conducted manually, with limited use of Power Mechanical Equipment (PME) for delivery material on site and watering the planting area along the road side. Therefore, no unacceptable noise impact would be expected and no specific monitoring and mitigation measures would be required.

#### Water Quality

3.1.4. All planting area under the entrusted landscape works are land-based, no major discharge would be expected from the establishment planting maintenance works. Therefore, no direct or indirect impact on marine water quality would be expected and no specific monitoring and mitigation measures would be required.

#### **Ecology**

3.1.5. No site clearance and associated habitat loss would be required under this contract. Moreover, all planting area under this contract area are land-based, no direct or indirect impact on the marine ecology would be expected. Therefore, no specific monitoring and mitigation measures would be required.

#### Landscape and Visual

3.1.6. The approved EIA report (Register No.: AEIAR-146/2009) has recommended landscape and visual mitigation measures to be undertaken. Furthermore, Section 7.3 of the Updated EM&A Manual for the TM-CLK Link Project has recommended monitoring and audit of these measures as referred to the design laid down in the Landscape and Visual Plan (LVP) submitted under Condition 2.9 of Environmental Permit EP-354/2009/D approved by EPD.

3.1.7. Monitoring and audit is necessary for monitoring of landscape establishment stage for fulfilling the requirements in Section 7 of the Updated EM&A Manual for the TM-CLK Link Project are presented in *Table 3.1*.

Table 3.1 Monitoring Requirement of Landscape Establishment

| Stage                  | Monitoring Task   | Monitoring<br>Report | Form of<br>Approval                       | Frequency |
|------------------------|---|----------------------|---|-----------|
| Establishment<br>Works | Monitoring of the planting works during the 24-month Establishment period after completion of the construction works. | compliance, by       | Counter-<br>signature of<br>report by IEC | Quarterly |

Remark:

3.1.8. Implementation status of the recommended mitigation measures is presented in *Appendix 3.1*.

#### Waste Management

3.1.9. All planting area under the entrusted landscape works are land-based, no dredged sediment, excavated C&D material, C&D waste, chemical waste and sewage would be generated. With only limited level of dead plant would be generated from works during maintenance of the planting area handled as part of overall waste management under Contract No. DC/2016/01 instead of as part of the EM&A under TM-CLKL project easily controlled by standard waste management practice, no specific monitoring and mitigation measure would be required.

#### Cultural Heritage

3.1.10. No historical/heritage object is required to be handled, no specific monitoring and mitigation measures would be required.

#### Landfill Gas

3.1.11. No landfill gas hazard is required to be handled, no specific monitoring and mitigation measures would be required.

#### 3.2 Status of Environmental Licensing and Permitting under the Project

3.2.1. As reported by contractor, no environmental license and permit are applicable to the area of the entrusted landscape works in the reporting period.

<sup>\*</sup>Quarterly monitoring for 24-month establishment period will be commenced starting from October 2022 as notified in August 2022 via the submission of the contract specific EM&A manual to EPD.

#### 4 Monitoring Programme

#### 4.1 Landscape and Visual Monitoring Requirements

4.1.1. As referred to layout plan of the entrusted landscape works, the landscape and visual impact mitigation measures applicable to the entrusted landscape works are listed in *Table 4.1*:

Table 4.1 Landscape and Visual Mitigation Measures applicable to the entrusted landscape works

| Ref. | Landscape and Visual Mitigation Measures  |
|------|---|
| CM2  | Trees unavoidably affected by the works shall be transplanted where practical. Trees will be transplanted straight to their final receptor site and not held in a temporary nursery. A detailed Tree Transplanting Specification shall be provided in the Contract Specification*. Sufficient time for necessary tree root and crown preparation periods shall be allowed in the project programme. |
| CM10 | Compensatory tree planting shall be provided to the satisfaction of relevant Government departments**. Required numbers and locations of compensatory trees shall be determined and agreed separately with Government during the Tree Felling Application process under ETWBTC 3/2006.  |
| OM4  | Structure, ornamental tree / shrub / climber planting should be provided along roadside amenity strips, central dividers and newly formed slopes to enhance the townscape quality and further greenery enhancement.   |

Remark:

Mitigation measures OM1, OM2, OM3, OM5 and OM6 are NOT applicable to the entrusted landscape works.

4.1.2. Should non-compliance of the landscape and visual impacts occur, actions in accordance with the action plan as presented in *Table 4.2* should be carried out.

<sup>\*</sup>Approved L&VP states that under the Contract Specification for HY/2012/07, 'Transplanted trees shall be relocated to the specified locations under single handling where possible. If it not possible, the Contractor shall make provision for the relocation of the transplanted trees temporarily to a holding nursery and replanting back of the transplanted trees to the specified locations.' As such, 5 transplant trees no. A149, NL0483, NL0489, NL0490 and NL0498 have been maintained in landscape sub-contractor's nursery to be replanted to final receptor site at Area 3A.

<sup>\*\*</sup>Change of tree nos. ET092 and ET093 from *Peltophorum tonkinense* 銀珠 to *Xanthostemon chrysanthus* 黃金蒲桃/澳洲黃花樹(due to lack of availability) is approved by AECOM, DSD Landscape Unit, HyD and LCSD.

Table 4.2 Event and Action Plan for Landscape and Visual Impact

| EVENT                          | ACTION  |  |  |  |  |  |  |
|--------------------------------|---|--|--|--|--|--|--|
| ACTION<br>LEVEL                | ET  | IEC  | PMD  | CONTRACTOR   |  |  |  |

| Non-conformity on one occasion | Identify Source     Inform IEC and PMD     Discuss remedial actions with IEC, PMD and Contractor     Monitor remedial actions until rectification has been completed  | Check report     Check Contractor's working method     Discuss with ET and Contractor on possible remedial measures     Advise PMD on effectiveness of proposed remedial measures.     Check implementation of remedial measures               | Notify Contractor     Ensure remedial<br>measures are<br>properly<br>implemented | Amend working methods     Rectify damage and undertake any necessary replacement |  |  |  |
| Repeated Non-conformity        | Identify Source     Inform IEC and PMD     Increase monitoring frequency     Discuss remedial actions with IEC, PMD and Contractor     Monitor remedial actions until rectification has been completed     If non-conformity stops, cease additional monitoring | Check monitoring report     Check Contractor's working method     Discuss with ET and Contractor on possible remedial measures     Advise PMD on effectiveness of proposed remedial measures     Supervise implementation of remedial measures | Notify Contractor     Ensure remedial<br>measures are<br>properly<br>implemented | Amend working methods     Rectify damage and undertake any necessary replacement |  |  |  |

#### 4.2 Monitoring Programme

- 4.2.1. With the completion of all the entrusted landscape works associated with the interface areas between Contract No. HY/2012/07 and DC/2016/01 along a section of Cheung Tung Road certified by the Project Manager's Delegate under Contract No. DC/2016/01 in mid-July 2022, the 24-month landscape establishment period was proposed for commencement on 14 July 2022 as per the joint inspection with HyD, IEC and ET.
- 4.2.2. Quarterly monitoring for 24-month establishment period will be commenced starting from October 2022 as notified to EPD in August 2022 via the submission of the contract specific EM&A manual to EPD. Tentative monitoring schedule is presented in *Table 4.3*:

Table 4.3 Current and Upcoming Schedule of Landscape Establishment Monitoring

| Month     | Monitoring Location                         |
|-----------|---|
| May 2023  | Nil   |
| July 2023 | Entrusted landscape areas (c.f. Figure 1.2) |

#### 5 Monitoring Results

#### 5.1 Landscape Establishment Monitoring Results

No landscape establishment monitoring was conducted in this reporting period. Detailed information are referred to *Appendix 5.1*.

#### 6 Complaints, Notification of Summons and Prosecution

- 6.0.1. No environmental complaint, notification of summons and successful prosecution associated with entrusted landscape establishment was recorded for the in the reporting period.
- 6.0.2. The details of cumulative complaint log and updated summary of complaints are presented in *Appendix 6.1*.
- 6.0.3. Cumulative statistic on complaints, notification of summons and successful prosecutions are summarized in *Table 6.1*, *Table 6.2* and *Table 6.3* respectively.

Table 6.1 Cumulative Statistics on Complaints

| Reporting Period  | No. of Complaints |
|---|-------------------|
| May 2023  | 0                 |

|---------------|-----------------------------------|--|--------------------------------|
| May 2023      | -                                 | 0  | 0                              |
| Total         | -                                 | 0  | 0                              |

#### 7 Conclusion

- 7.0.1. The EM&A programme was carried out in accordance with the contract specific EM&A Manual requirements, no air quality, noise, water quality, ecology, cultural heritage and landfill gas monitoring was required for the contract. No alterations to the programme proposed were made in response to changing circumstances.
- 7.0.2. With the completion of all the entrusted landscape works associated with the interface areas between Contract No. HY/2012/07 and DC/2016/01 along a section of Cheung Tung Road certified by the Project Manager's Delegate under Contract No. DC/2016/01 in mid-July 2022, the 24-month landscape establishment period was proposed for commencement on 14 July 2022 as per the joint inspection with HyD, IEC and ET.
- 7.0.3. No landscape establishment monitoring was conducted in this reporting period. Quarterly monitoring for 24-month establishment period will be commenced starting from October 2022 as notified in August 2022 via the submission of the contract specific EM&A manual to EPD.
- 7.0.4. No environmental complaint, notification of summons and successful prosecution associated with entrusted landscape establishment was recorded for the in the reporting period.

|-------------|----------------|---|--|-------------------------------------|---------------------------|----------|--------------------------|---|-----------------------|
|             | Ref.           |   |  |                                     |                           |          | C                        | 0 |                       |
| 10.9        | 7.6            | Existing trees on boundary of the Project Area shall be carefully protected during construction. Detailed Tree Protection Specification shall be provided in the Contract Specification. Under this specification, the Contractor shall be required to submit, for approval, a detailed working method statement for the protection of trees prior to undertaking any works adjacent to all retained trees, including trees in contractor's works areas (Tree protection measures will be detailed at Tree Removal Application stage) (CM1) | All areas  Detailed design / during construction                   | Design<br>Consultant/<br>Contractor | TMEIA                     | <b>√</b> | <b>V</b>                 |   | N/A                   |
| 10.9        | 7.6            | Trees unavoidably affected by the works shall be transplanted where practical. Trees will be transplanted straight to their final receptor site and not held in a temporary nursery. A detailed Tree Transplanting Specification shall be provided in the Contract Specification. Sufficient time for necessary tree root and crown preparation periods shall be allowed in the project programme (CM2)   | All areas  Detailed design / during construction                   | Design<br>Consultant/<br>Contractor | TMEIA                     | <b>~</b> | <b>✓</b>                 |   | N/A                   |
| 10.9        | 7.6            | Hillside and roadside screen planting to proposed roads, associated structures and slope works (CM3)  | All areas  Detailed design / during construction/post construction | Design<br>Consultant/<br>Contractor | TMEIA                     | <b>√</b> | <b>√</b>                 |   | N/A                   |

#### Abbreviations:

D: Design; C: Construction; and O: Operation.

AFCD: Agriculture, Fisheries and Conservation Department; HyD: Highways Department; and LCSD: Leisure, Cultural and Services Department.

TMEIA: Technical Memorandum on Environmental Impact Assessment Process.

N/A: Not applicable.

#### Note:

Funding Agent for all mitigation measures will be the Highways Department of the Hong Kong SAR Government.
