

a Lotus Bridge in Macau SAR as seen in un-modified photograph taken from 600m north of the bridge on 28 March 2002. Pier spacing left (east) of the navigation channel across the mudflat is 35m, less than half of the 75m proposed for the SWC bridge.

b Modified photograph showing piers spaced at 70m intervals left (east) of the navigation channel across the mudflat. This spacing approximates the 75m spacing proposed for the SWC bridge.
