UNMITIGATED VIEW

WITH MITIGATION MEASURE AT OPERATION DAY 1

RESIDUAL IMPACT AT OPERATION YEAR 10

OM3- Appearance and Greening for the proposed structures
 Compatible design, construction materials and surface finishes of the proposed structure should match with the nearby existing external appearance of PPSTW buildings for achieving visual uniformity. Finishing materials shall have due consideration to form, basic color, color/tone variation, micro- and macro-texture, and reflectivity/light absorbance to avoid glare. Planting, such as turf, low groundcovers and climbers, may also be planted on top of these elements to provide greening and aesthetic effect.

Proposed Tree Plantings
 (CM8, CM9, CM10, OM1)
