Original Usage: Shophouse (shop on ground floor, residences above)	Current Usage: Shop on ground floor, upper stories vacant/ storage	
Orientation: South	Map Reference: #207 Des Veoux Rd West	
Construction Date: Unknown	Ownership: Private	
Setting: On the corner of two streets in a mixed commercial and residential area of Hong Kong Island	Historical Associations: None	
Condition: Fair (structure is in need of repair)	Degree of Modification: Low	
Architectural Significance: Moderate	Cultural Significance: Moderate	
<p>Description: Four storey rectangular concrete structure with flat roof. The ground floor has retained the original architectural style of shop in central and back section of the building with a covered area over pavement supported by two pillars. The three upper stories each have rooms above the front section. The front section of the building has windows over urn style balusters. The eastern side of the building (upper 3 floors) have three decorative balconies each with four paned window above. The building is painted cream in colour.</p>		
Inscriptions: None		
<p>Additional Notes: This is a rare example of a historical (i.e. non-renovated) shop house style building retaining its original function in Hong Kong. Thus both architecturally and culturally significant.</p>

Project: Harbour Area Treatment Scheme (HATS) Stage 2A: Built Heritage Impact Assessment – Investigation	Location: Stonecutters Island (Old Prison Area, Block 318)	Ref # HATS-10
Originally Recorded: 01.03.07	Updated On: N/A	
Original Usage: Prison Watch Tower	Current Usage: Military	
Orientation: Door facing SSW	Map Reference: N/A	
Construction Date: Between 1863 and 1866	Ownership: PLA	
Setting: The tower is located on the eastern side of the island. The tower is currently set at the roads edge with pavement up to its foundation.	Historical Associations: The structure was originally built for a prison that was never used.	
Condition: Very Good (some vegetation growth on side walls)	Degree of Modification: Low	
Architectural Significance: High	Cultural Significance: High	
Description:		
<p>Block 318: Octagonal two storey structure. The ground floor is constructed of granite masonry blocks with quoins at the corners. There are small slit like openings in the stone work. The upper floor of the building has an exterior covered in render with quoins on all of the corners and a cornice (with dentil style decoration). The roof is Chinese style with round chunam covered end tiles. There is a modern wooden door on the ground floor at ground level and directly onto the pavement. There are modern glass windows in the upper storey.</p>		
Inscriptions: None		
Additional Notes: Grade I historical building.

Original Usage: Prison Watch Tower	Current Usage: Military	
Orientation: Northeast	Map Reference: N/A	
Construction Date: Between 1863 and 1866	Ownership: PLA	
Setting: The building is located on the eastern side of the island. It is situated at the current roadside and at the end of a stone wall.	Historical Associations: The structure was originally built for a prison that was never used.	
Condition: Excellent	Degree of Modification: Exterior low (air-conditioning and electricity added, modern windows)	
Architectural Significance: High	Cultural Significance: High	
Description:		
<p>Block 319: Octagonal tower with two stories. Ground floor has a concrete foundation with cut granite block walls. There are two doors the first faces in a northerly direction and is situated above the current ground level and is reached by a set of concrete steps. The door is made of vertical wooden boards and painted white. The other door faces in a southerly and is set at ground level. There are four projecting granite brackets over the doorway. The exterior of the first floor of the building is covered in render and painted white with black trim, painted quoins and cornice with dentil pattern decoration. There are small slit windows on the ground floor. The roof of the building is similar to that of Block 318 with chunam covered round end tiles.</p>		
Inscriptions: None		
Additional Notes: Grade I historical building.

Project: Harbour Area Treatment Scheme (HATS) Stage 2A: Built Heritage Impact Assessment – Investigation	Location: Stonecutters Island (Old Prison Area, Block A)	Ref # HATS-12
Originally Recorded: 01.03.07	Updated On: N/A	
Original Usage: Part of the old prison	Current Usage: Military	
Orientation: The south-east side of the building is currently being used as the entrance. It was not possible to tell if this was the original entrance.	Map Reference: N/A	
Construction Date: Between 1863 and 1866	Ownership: PLA	
Setting: The building is situated in an area containing a number of newly built buildings. The northern facing side of the building faces directly onto the road.	Historical Associations: The structures were originally built for a prison that was never used.	
Condition: Excellent	Degree of Modification: Exterior low	
Architectural Significance: High	Cultural Significance: High	
Description:		
<p>Rectangular two storey building with cut granite masonry ground floor exterior and render covered first floor exterior walls. The northwest facing wall has two projecting bays (5 sided) on either side of the doorway (modern wooden door set in niche; rounded roman style arch with keystone). The window above the doorway on the first floor has similar flat arch around it. The windows in the bays are on the first floor only and consist of narrow slits. The other parts of the building have modern windows and doors.</p> <p>The bay sections have quoins, the other corners of the building are undecorated. The first floor is painted white and has cornice with black painted trim. Details of the roof were not possible to discern from the ground, apart from the fact that it was flat.</p>		
Inscriptions: None		
Additional Notes: Grade II historical building
