Day 1 without Mitigation

Building with concrete finish

**NOTE:**  
At the time of reporting, detail architectural design for the WIL structures was not available. The drawing provides impression of the indicative form, size and quality of the architectural and landscape treatment for the WIL structure. Final details of finishes, materials and layout will be subject to detailed development, and technical, operational and maintenance constraints to be identified in the detail design stage.

Day 1 with Mitigation

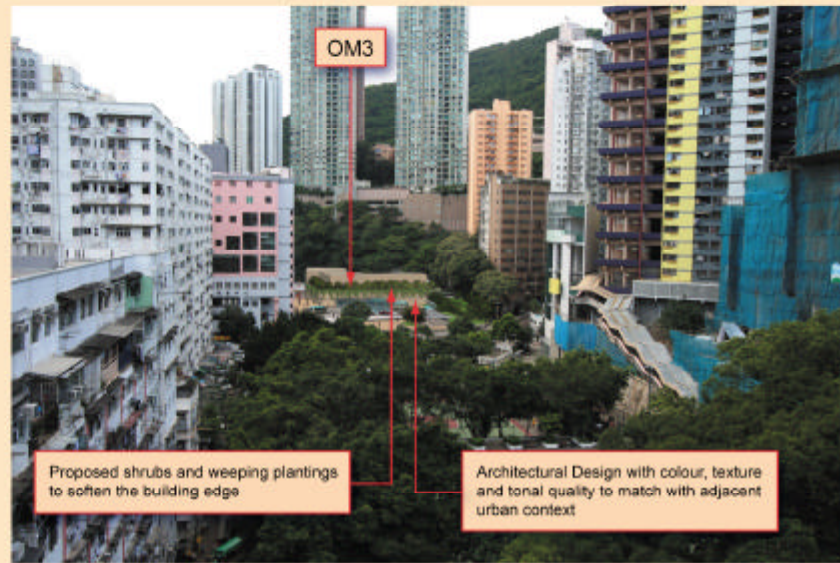

OM3

Proposed shrubs and weeping plantings to soften the building edge

Architectural Design with colour, texture and tonal quality to match with adjacent urban context

Year 10 with Mitigation

OM3

Proposed shrubs and weeping plantings to soften the building edge

Architectural Design with colour, texture and tonal quality to match with adjacent urban context
