Notes:

1 - Status follows Fellowes *et al.* 2002. GC = Global Concern; PGC = Potential Global Concern; LC = Local Concern.

2 - Status in HK follows Tam *et al.* 2011. A = Abundant; C = Common.

*A sighting of Emerald Cascader was made during a site visit in August 2013 in the secondary woodland in the southeast of the Study Area.

- Maximum count of each dragonfly species is presented. Maximum count refers to the highest number of individuals recorded during the survey period.
