**To: Distribution List**

16 January 2013

Dear Sirs

**Agreement No. CE 18/2012 (CE)  
Development of Anderson Road Quarry – Investigation  
Request for information about friction course materials**

We, Ove Arup & Partners Hong Kong Ltd., have been appointed by the Civil Engineering and Development Department (CEDD) to conduct the captioned study (the Assignment). One of the major tasks of the Assignment is to undertake an Environmental Impact Assessment (EIA) in accordance with the requirements stipulated in the EIA Study Brief (No. ESB-247/2012). We would be grateful if you could provide us the following information for our road traffic noise assessment under the EIA.

- Extent of friction course materials for the roads within our assessment area in Figure 1.
- Any future plan for retrofitting the friction course materials within the assessment area. Please provide drawings showing the extent and implementation programme.

In view of the tight programme of the Assignment, your prompt response by **31 January 2013** would be much appreciated. Please contact our Mr. W K Chiu at 2268 3149 or Mr. Louis Liao at 2908 4049 for details if required. Thank you for your help in advance.

Yours faithfully

S Y Chan  
Senior Project Manager

Dear Sirs,

**Agreement No. CE 18/2012 (CE)**  
**Development of Anderson Road Quarry – Investigation**  
**Request for Information about Friction Course Materials**

I refer to your above quoted letter dated 16.1.2013 requesting for extent of friction course materials for the roads within your assessment area.

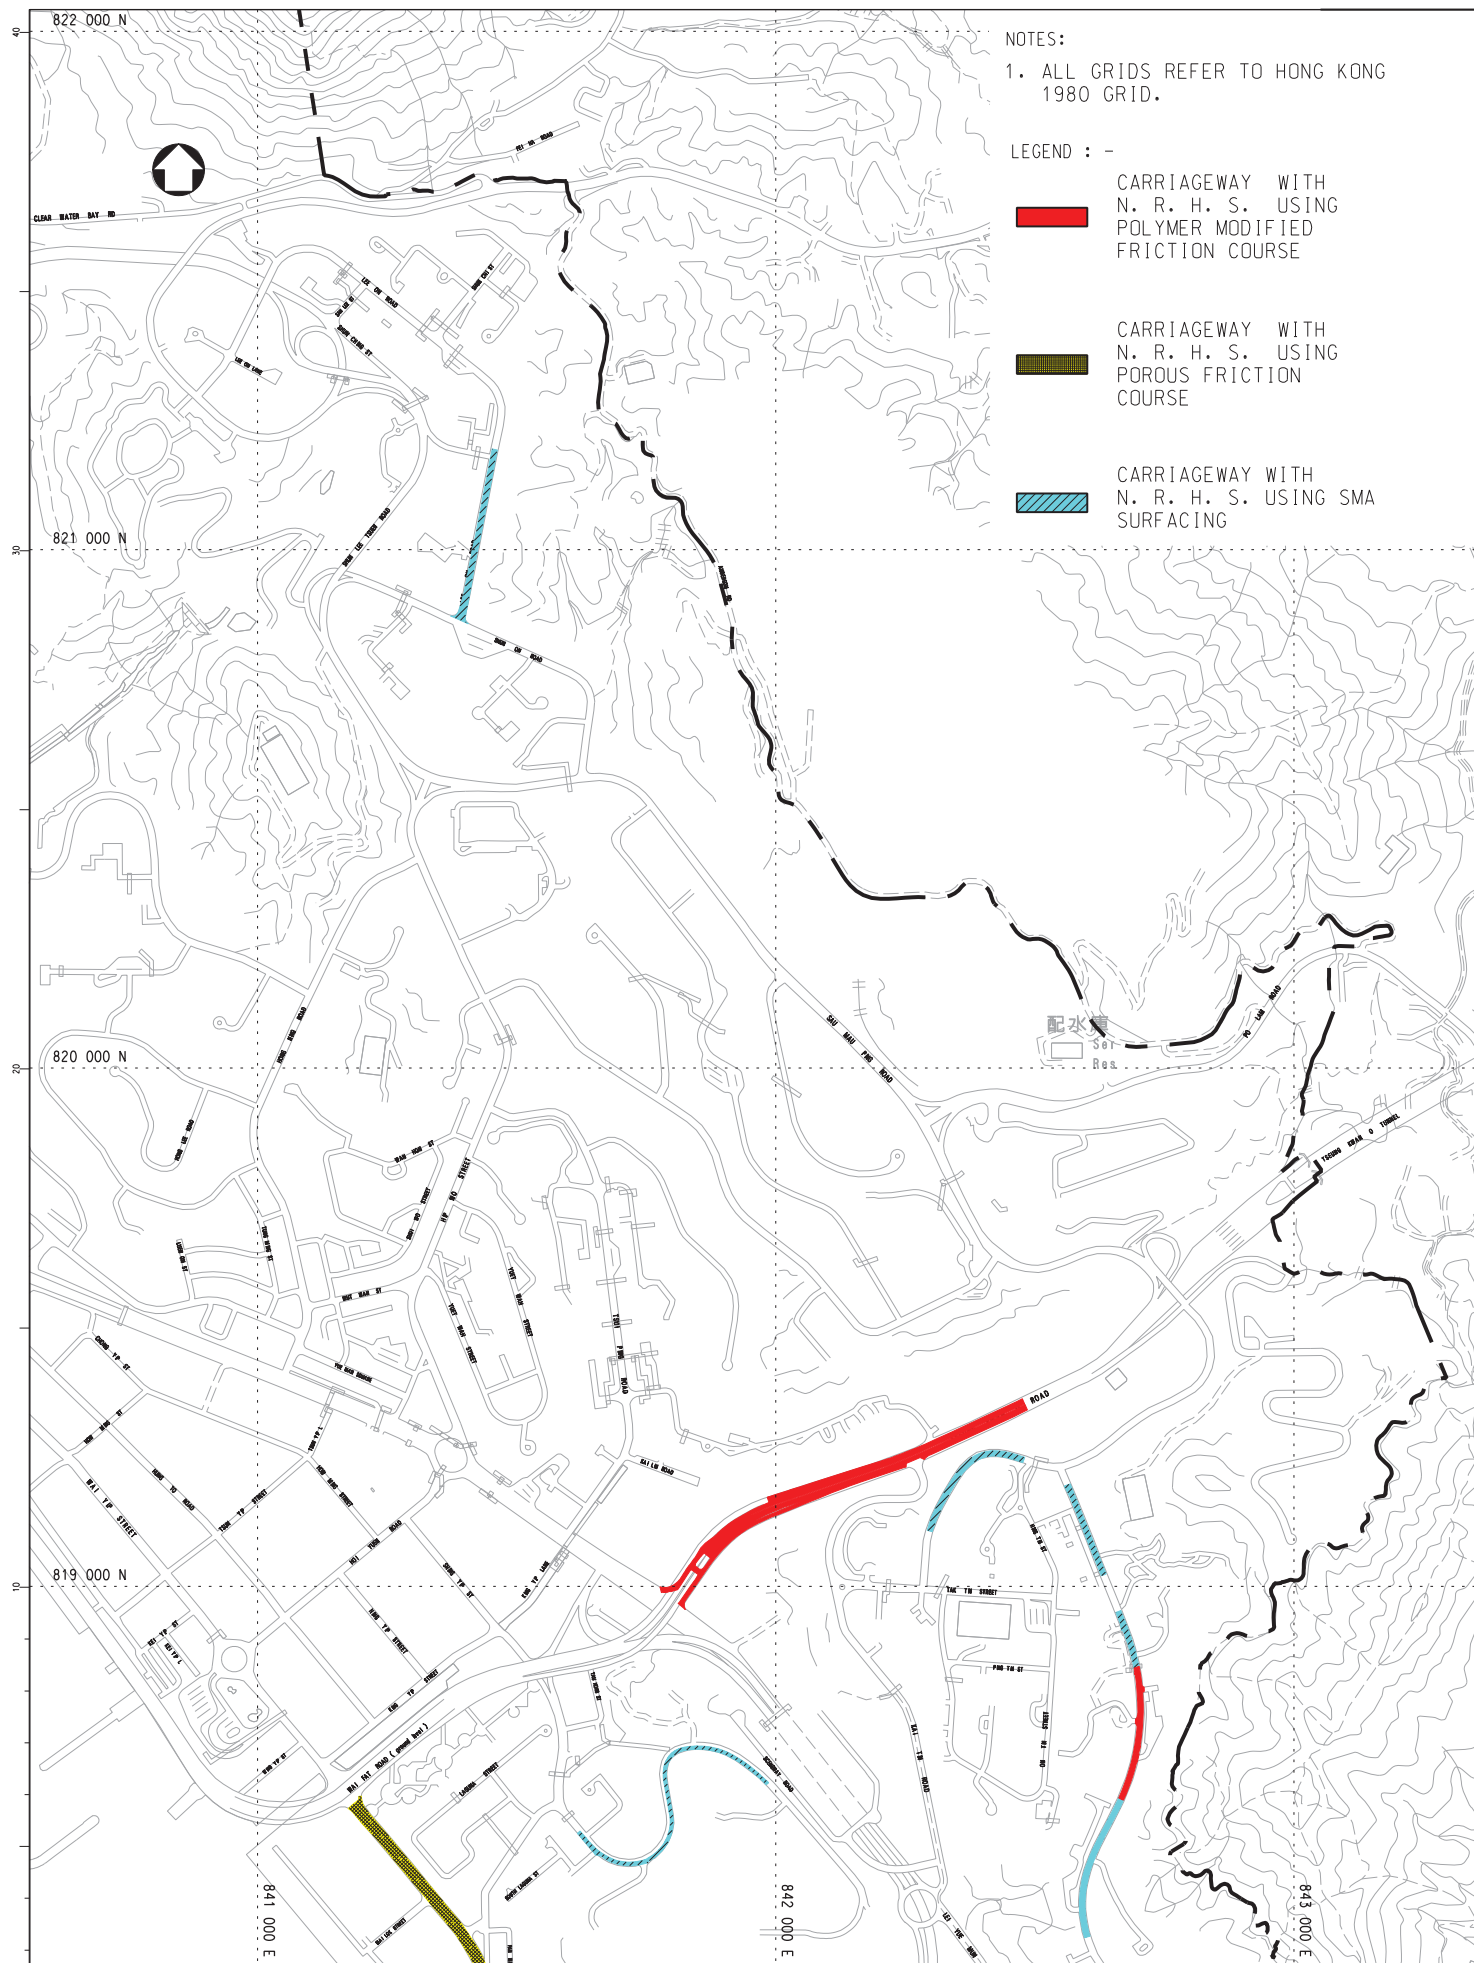

- Please be advised that you can send a representative to this Office to inspect the drawings showing the surface materials of roads maintained by this Office within the assessment area. Please contact our STO – Mr TSE Shck-kwai at 2762 3925 for necessary arrangement.
- Please note that this Office has no plan for retrofitting the friction course materials within the assessment area.

Yours faithfully,

(Evan Y M HO)  
 for Chief Highway Engineer/NT East  
 Highways Department

Internal ME/SK, CTO/TKO
