

**Appendix 4-1**  
Background Noise Level of the Project Site and  
Field Visit Records

## Appendix 4-1 Background Noise at the Site

Note: Measurements were performed in a Free-field situation, no façade collection (+3dB(A)) were applied.

## Appendix 4-1A Field Survey Records of Industrial Site

Date	Noise Measurement and Observed Dominant Noise Source	Observation/ Remark
26 Feb., 2009 (Thur.)	-	Identification of industrial site location.
30 Mar., 2009 (Mon.)	-	Identification of industrial site location.
10 Jul., 2009 (Fri.)	-	No specific noisy operations at the industrial site.
21 Jul., 2009 (Tue.)	-	Industrial site was found to be closed around 7:00pm.
30 Jul., 2009 (Thur.)	-	No specific noisy operation at the industrial site.
07 Aug., 2009 (Fri.)	S1 – Noise measurement around 10:30am due to open storage site.	S1 - Interviewed with staff at San Tin Rural Committee (新田區居民協會) that there is only occasional travelling of construction vehicle within the industrial site.
21 Aug., 2009 (Fri.)	-	Industrial site was found to be closed around 07:00pm.
03 Nov., 2009 (Tue.)	-	No specific noisy operations at identified industrial site during the site visit.
23 Dec., 2009 (Wed.)	-	No specific noisy operations at identified industrial site during the site visit.
05 March 2010 (Fri.)	-	No specific noisy operations at the industrial site.
26 May 2010 (Wed.)	-	Operation activities observed were same as those identified in the previous site visits. Industrial site was found to be closed around 7:00pm.
12 Jul., 2010 (Mon.)	-	Operation activities observed were same as those identified in the previous site visits.
26 Aug., 2010 (Thur.)	-	Site visit was conducted during night-time (23:00 on 26 Aug 2010 to 03:00 on the following day).  All identified industrial sites were found to be closed and there was no night-time operation at the industrial site.
29 Oct., 2010 (Fri.)	-	Operation activities observed were same as those identified in the previous site visits.
10 Dec., 2010 (Fri.)	-	Operation activities observed were same as those identified in the previous site visits.
05 Mar., 2011	-	No specific noisy operations at the industrial sites.
25 May, 2011	-	Industrial sites were found to be closed around 7:00pm.  Operation activities observed were same as those identified in the previous site visits.
28 Jul., 2011	-	Operation activities observed were same as those identified

Date	Noise Measurement and Observed Dominant Noise Source	Observation/ Remark
		in the previous site visits.
21 Sept., 2011	-	Operation activities observed were same as those identified in the previous site visits
12 Oct., 2011	-	Operation activities observed were same as those identified in the previous site visits
31 Jan., 2012	-	Operation activities observed were same as those identified in the previous site visits.
09 Aug., 2012	-	Operation activities observed were same as those identified in the previous site visits. Industrial site was found to be closed around 7:00pm.
16 Aug., 2012	-	Operation activities observed were same as those identified in the previous site visits.
24 Aug., 2012	-	Operation activities observed were same as those identified in the previous site visits.
07 Sept., 2012	-	Operation activities observed were same as those identified in the previous site visits.
06 Feb., 2013	-	Operation activities observed were same as those identified in the previous site visits. Industrial site was found to be closed around 7:00pm.
07 Feb., 2013	-	Operation activities observed were same as those identified in the previous site visits. Industrial site was found to be closed around 7:00pm.
22 Feb., 2013	-	Site visit was conducted during night-time (23:00 on 22 Feb., 2013 to 03:00 on the following day). The identified industrial site was found to be closed and there was no night-time operation at the industrial site.
15 Apr., 2013	Noise measurement at open storage site during its operation.	Operation activities observed were same as those identified in the previous site visits.
24 Apr., 2013	Noise measurement at open storage site during its operation.	Operation activities observed were same as those identified in the previous site visits.
06 May, 2013	Noise measurement at open storage site during its operation.	Operation activities observed were same as those identified in the previous site visits.
31 May, 2013	-	Site visit was conducted during night-time (23:00 on 31 May, 2013). The identified industrial site was found to be closed and there was no night-time operation at the industrial site.
24 Oct., 2013	-	Operation activities observed were same as those identified in previous site visits
24 Feb., 2014	-	Operation activities observed were same as those identified in previous site visits
