Notes:

1 - Status follows Fellowes *et al.* (2002) and IUCN (2017). Fellowes *et al.* (2002): LC = Local concern; PRC = Potential Regional Concern; RC = Regional Concern; Letters in parentheses indicate that the assessment is on the basis of restrictedness in breeding and/or roosting sites rather than in general occurrence.

* Simmons (2005) states that the *Nyctalus* species found in China should be separated as *N. plancyi*.

^Footprints were found.

Abundance: + = 1-4; ++ = 5-10; +++ = >10
