備註 Remarks :

本地生產總值統計數字由政府統計處編製，以二零零五年環比物量計算 GDP statistics are compiled by Census and Statistics Department and calculated in chained (2005) dollars.

溫室氣體清單是根據「政府間氣候變化專門委員會」的指引制定 Greenhouse gas inventory is compiled based on the methodology of the Intergovernmental Panel of Climate Change

由於四捨五入，數值相加未必等於總和 May not sum to total due to rounding

數字在日後得到更多資料時會作出修訂 Figures are subject to revision later on as more data become available.
