

Guidance Notes for Completing Notification Form for Regulated Paints

1. This notification form is developed by the Authority to facilitate importers and local manufacturers of the regulated paints to notify the Authority about the information as stipulated in section 7 of the Air Pollution Control (Volatile Organic Compounds) Regulation. Guidance is provided below to assist the party making a notification to the Authority in completing the form and submitting it. The notes are for general information only and have no legal effect.
2. For details of the above Regulation, please visit the Department of Justice's website at <http://www.legislation.gov.hk> under 'Chapter 311, Air Pollution Control Ordinance'. The Regulation is also obtainable by subscription at the online Government Bookstore - <http://bookstore.esdlife.com>. A summary of the regulated paints is provided in Appendix A.
3. Notification of regulated paints to the Authority is required for regulated paints imported or locally manufactured on or after 1 April 2007. Every importer or local manufacturer (excluding the party solely involved in adding colourant to the tint base of a regulated paint) who imports or manufactures the regulated paints as defined in Schedule 1 of the Air Pollution Control (Volatile Organic Compounds) Regulation, Chapter 311 on or after 1 April 2007 should fill in this notification form for submission to the Environmental Protection Department (EPD) either by hand or by registered post to the following address:-

Territorial Control Office,
Environmental Protection Department
28/F., Southorn Centre,
130 Hennessy Road, Wanchai, Hong Kong.
(Attn: VOC Control)
4. Notification shall be made prior to the sale or use of the regulated paints in Hong Kong. An importer or local manufacturer is only required to notify the Authority once for each product when he imports it into Hong Kong or manufactures it in Hong Kong for the first time respectively. The products may be sold or used once the notification is made without waiting for the Authority's confirmation of the receipt of the notification. Under normal circumstances, the Authority will not confirm the receipt of a notification. The Authority may contact the party making a notification if clarification is required. The party submitting a notification is strongly recommended to submit the form by registered post and keep all records of the notification for future inspection by the Authority. Under section 22 of the above Regulation, records of notifications and other relevant information shall be kept for not less than three years.
5. The following should be noted when completing the notification form:
 - (a) Only importers or local manufacturers of the regulated paints need to notify the Authority. Please refer to the Personal Information Collection Statement in Appendix B about the handling of personal data collected through the submission.
 - (b) Please complete the form in black or blue ink and in block letters. Typewritten notifications are acceptable.

- (c) If there is insufficient space in any column to fill in all the information, please use separate sheet(s) of paper cross referenced to the particular column clearly marked on the sheet. Photocopies of the blank Annexes A & B should be used if additional sheets for Annexes A & B are required. All the additional sheet(s) of information should be numbered.
- (d) Change of packaging or reformulation without effect on the total volatile organic compound (VOC) content does not require fresh notification.

6. The information contained in Annex A of the form is required to be provided under the above Regulation. When completing Annex A, please note the following:

- (a) Item number, brand and full name of the product Assign one number to each product and number the products consecutively. List the brand and full name of each product exactly as they appear on the principal display panel of the product. Products containing different levels of VOC content will be reported separately. Include trade samples unless exempted by the Authority.
- (b) Regulated product code Fill in the appropriate regulated product code as shown in Appendix A.
- (c) Unit size of product when it is sold. Give the volume (litre) or weight (kg), excluding container and packaging, in which the regulated paints are supplied or sold. If the imported product will need to be reprocessed by another local manufacturer, please put "TBR" after the unit size.
- (d) Brand, full name and specific gravity of the recommended diluent, if any, to be used. Specify if thinning with organic solvent is required before the product is applied and, if positive, provide the brand name and full name and specific gravity of the recommended diluent and the dilution ratio.
- (e) VOC content of colourant added to the tint base of the product. Give the colourant's VOC in grams per litre of the regulated paint in a "ready-to-use" condition, in a format similar to that specified in Part 5 of Schedule 1 to the Regulation. No deduction of colourant's VOC shall be made in determining the VOC content of product if input to this column is not provided.
- (f) VOC content of product in "ready-to-use" condition VOC content of the regulated paint in a 'ready-to-use' condition shall be expressed in a format as specified in Part 5 of Schedule 1 to the Regulation. Indicate whether colourant's VOC has already been subtracted from this VOC content of product. Subtraction is accepted only when the colourant VOC has been provided in this form.

7 Importers and local manufacturers are encouraged to provide supplementary information as shown in Annex B to the Authority for assisting the Authority in compiling statistical information about regulated paints in Hong Kong and monitoring the implementation progress of the above Regulation. Provision of the information is optional.
