Property Management Practitioners,

Chemical Waste Producer Register

I write to give you early notice that EPD will soon issue letters to request selected registered chemical waste producers on our Register to verify their registration detail and status. It is a statutory requirement that every registered waste producer must inform us of any change in their registration particulars as soon as practicable after such change occurs.

Initially, we will mainly select and request those who have not generated any chemical waste during the past 5 years to verify their particulars and confirm if they wish to remain on the Register. In this regard, we suggest that those who already ceased operation or relocated should consider canceling their registration or apply for a new Waste Producer Number to avoid the risk of being held liable for misuse or negligence. To facilitate the smooth conduct of this exercise, I shall be pleased if you would kindly inform your Members their statutory obligation and help solicit their cooperation in providing prompt response to our letters.

Please feel free to contact Ms Vivian Lau at 2150-8040 should you have any enquiries.

Yours faithfully,

(Mr. FOK Wai-kai, Anthony)

Senior Environmental Protection Officer
for Director of Environmental Protection
