# 全民減廢·資源循環·零廢堆填

"Waste Reduction • Resources Circulation • Zero Landfill"

2

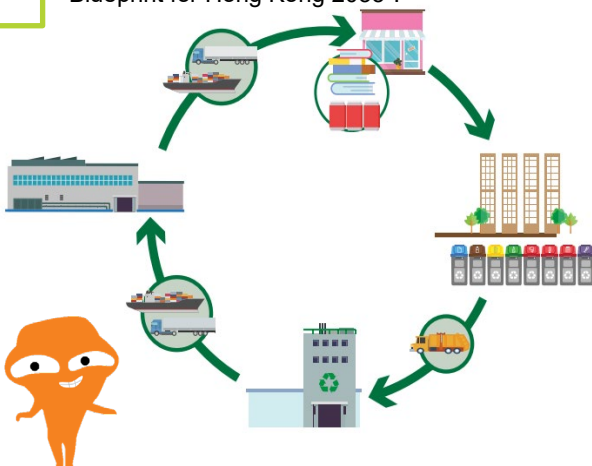

「全民減廢·資源循環·零廢堆填」是《香港資源循環藍圖2035》提出的願景。

"Waste Reduction • Resources Circulation • Zero Landfill" is the vision set out in the "Waste Blueprint for Hong Kong 2035".

要有效減少廢物、收集回收物並使其增值，必須移風易俗，人人養成源頭減廢及分類的習慣。

To enable efficient waste reduction, collection and upcycling of recyclable materials, it is necessary for members of the community to change the culture and their behaviour, and develop the habit of practising waste reduction and separation at source.

《香港資源循環藍圖2035》的中期目標，是要將都市固體廢物的人均棄置量減少四成至四成半。為此，香港市民必須繼續為實踐「惜物、減廢」的環保文化共同努力。

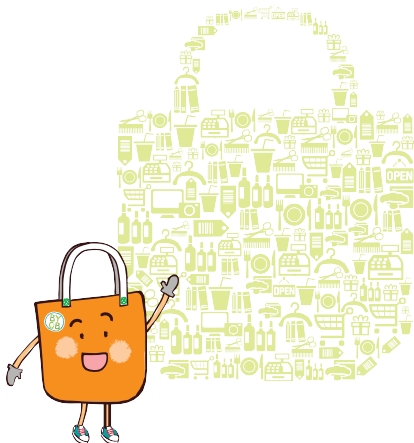

The medium-term target under the Waste Blueprint for Hong Kong 2035 is to reduce the per capita disposal rate of municipal solid waste by 40-45%. We need the joint efforts of the entire community to embrace in daily life an environmentally sustainable culture of "Use Less, Waste Less".

# 自備購物袋 方便又環保

## Bring Your Own Bag, an easy way to live green

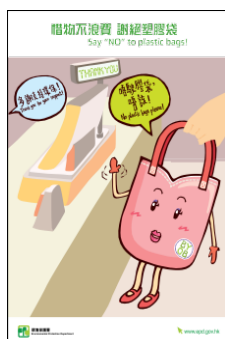

多次重用塑膠購物袋可減少耗用塑膠物料。

Repeated use of PSBs can reduce consumption of plastic materials.

出門購物前，記得帶備購物袋，例如棉質袋，或重用塑膠購物袋。

Bring your own bag, for example cotton shopping bag, before you go shopping, or reuse PSBs.

應政府邀請，可持續發展委員會（下稱「委員會」）於2021年9月至12月就管制即棄塑膠進行了公眾參與。當中一項電話調查發現，超過九成受訪者有自備購物袋的習慣。

Upon the Government's invitation, the Council for Sustainable Development ("SDC") conducted a public engagement from September to December 2021 on control of single-use plastics. A telephone opinion survey reveals that over 90% of the respondents have the habit of bringing their own shopping bags.

# 減用膠袋 全球趨勢

## Global trend to reduce plastic bag use

台灣於2018年將「購物用塑膠袋限制使用政策」擴大至14個行業。

Taiwan extended "Restricted Use Policy on PSBs" to 14 types of business in 2018.

現時每個塑膠購物袋最低5角的收費水平自2009年實施首階段收費計劃以來從未作出調整。

這個收費水平的經濟抑制效力或已隨時間減弱。而自2015年全面推行膠袋收費後，塑膠購物袋棄置量有回升的趨勢，香港亦要適時優化現行計劃以維持其減廢成效。

The present charge of at least 50 cents per PSB has not been adjusted since the first phase of the PSB Charging Scheme implemented in 2009. It appears that the disincentive effect of the present charging level has been diminishing as time goes by. Rebounds of PSB disposal rate after full implementation in 2015 were observed, calling for enhancement of the Scheme to maintain its effectiveness.

澳門於2019年開始為每個在零售行為中提供的塑膠袋收取澳門幣1元（約港幣1元）。

Macao started to charge MOP\$1 (approximately HK\$1) per plastic bag provided during retail activities in 2019.

英格蘭於2021年5月擴展膠袋收費至所有零售商，並將收費提升至最低10便士（約港幣1元）。

England extended "single use carrier bag charge" to all retailers and increased the charge to at least 10 pence per plastic bag (approximately HK\$1) in May 2021.
