

**ACTION PLAN FOR IMPLEMENTING
THE AMENDMENTS & ADJUSTMENTS OF THE MONTREAL PROTOCOL
SUBSEQUENT TO THE COPENHAGEN MEETING IN NOVEMBER 1992**

CONTROL PROGRAMMES	TARGET DATE	PROGRESS
1 Adjustments of the Montreal Protocol		
a) Phase out halons in 1994	January 1994	No more quota for retained import of halons will be issued after 31.12.93.
b) Reduce the consumption of 5 CFCs to 25% of 1986 level.	January 1994	Quota for the 5 kinds of CFCs will be reduced by 75% for 1994.
c) Reduce the consumption of 10 other CFCs to 25% of 1989 level.	January 1994	Quota for retained import of 10 other CFCs for 1994 will be reduced to 25% of 1989 level.
d) Reduce consumption of 1,1,1-trichloro-ethane to 50% of 1989 level.	January 1994	Quota for retained import of 1,1,1-trichloroethane will be reduced by 50% in 1994.
e) Reduce consumption of carbon tetrachloride to 15% of 1989 level.	January 1995	Ozone Layer Protection Ordinance has been amended to cover carbon tetrachloride. Quota control will begin on 1.1.95.
f) Complete phase out of CFCs, carbon tetrachloride and 1,1,1-trichloroethane.	January 1996	No more import quota for these chemicals will be issued after 1.1.96.
2 Amendments of the Montreal Protocol		
a) Control the annual consumption of HCFCs to 100% of 1989 plus 3.1% of the calculated level of 1989 CFC consumption.	January 1996	Ozone Layer Protection Ordinance (OLPO) will be amended accordingly by 1996 to allow quota control to be extended to cover HCFCs.
b) Control the annual consumption of methyl bromide to 100% of 1989 level.	January 1995	OLPO will be amended to allow quota control to be extended to cover methyl bromide in 1995.
c) Prohibit the import and export of HBFCs from and to non-parties.	January 1995	OLPO will be amended to cover HBFCs in 1994 such that no import nor export licences will be issued for consignments originated from or destined for non-parties.
CONTROL PROGRAMMES		
d) Complete phase out of HBFCs.	January 1996	No more import licence for local consumption will be issued after 1.1.96.
e) Data reporting on base year's import and export statistics for HCFCs, HBFCs and methyl bromide.	December 1993 (ahead of Protocol's requirement)	Data collection in progress. Will be reported in due course.
3 Essential uses		
a) Nominate essential uses of halons	31.3.93	Completed
b) Nominate essential uses of CFCs, carbon tetrachloride and 1,1,1-trichloroethane	30.9.93	Completed
