

**Annex 1 Average Radon Levels in Hong Kong**

<b>Premises</b>	<b>Radon Concentration (Bq/m<sup>3</sup>)<sup>[1]</sup></b>
Residential	86
School	83
Office	140 <sup>[2]</sup>
Factory	115 <sup>[2]</sup>
Public Place	106 <sup>[2]</sup>
Hospital	42
All Premises	98

*Note:*

- [1] 'Bq/m<sup>3</sup>' or 'becquerel per cubic metre' is the unit of radioactivity concentration.
- [2] Higher measured levels could be due to the inclusion of sampling during hours with no ventilation, such as non-office hours, when radon is trapped and accumulates.
