ACE Paper 9/2020
For information on 7 September 2020

Expansion of Hong Kong International Airport into a Three-Runway System (“3RS”)

Update on the Implementation of Marine Ecology Mitigation and Enhancement Measures in association with the 3RS Project

Background Note

PURPOSE

This paper provides background information to the paper on “Expansion of Hong Kong International Airport into a Three-Runway System (“3RS”) - Update on the Implementation of Marine Ecology Mitigation and Enhancement Measures in association with the 3RS Project” prepared by the Airport Authority Hong Kong (AAHK) for discussion at the Advisory Council on the Environment (ACE) meeting on 7 September 2020.

BACKGROUND

2. As part of the Environmental Impact Assessment Study for the 3RS, AAHK has committed to implement various marine ecology mitigation and enhancement measures in conjunction with the works activities related to the 3RS Project, which were stipulated as conditions in the Environmental Permit (EP)¹, and has regularly updated this Council.

3. A table setting out the relevant papers and minutes is appended below for Members’ easy reference –
