

Generation and Demand of Public Fill from 2002 to 2005

Generation and demand of public fill from 2002 to 2005 are set out below:-

Year	2002	2003	2004	2005
Total Generation of Construction & Demolition Materials, i.e. public fill and waste (million tonnes)	15.8	19.6	20.5	21.5
Total Generation of Public Fill (million tonnes)	12.1	17.2	18.1	19.1
Total Demand of Public Fill (million tonnes)	11.4	9.1	13.6	20.4
Total Surplus of Public Fill (million tonnes)	0.7	8.1	4.5	-1.3

Note:

The increase in public fill demand in 2005 is mainly due to the increase of public fill intake for Penny's Bay Reclamation Stage 2.
