

Notes:

* The Incinerator flue pipe runs:

- (a) horizontally from the Incinerator room through the boiler room and the mechanical and electrical room within the sub-lower ground floor; and then
- (b) vertically above the roof through the mechanical and electrical room of each floor (from sub-lower ground floor to 7/F).

** Decommissioning is required to be carried out at Incinerator room, boiler room and mechanical and electrical rooms at sub-lower ground floor.

Project Title : Decommissioning and Disposal of a Clinical Waste Incinerator at Tang Shiu Kin Hospital
 工程名稱: 清拆及處理位於鄧肇堅醫院的醫療廢物焚化爐

Environmental Permit No. : EP-154/2003

環境許可證編號: EP-154/2003
