Note:

(1) A site reduction factor of 83% is applied to sites of commercial, residential and OU(C,R & D) uses.

(2) Commercial podium development of R1c and CDA sites are assumed to be not more than 2 storeys.

(3) Free standing non-domestic purpose-built buildings in PRH sites are for retail and carparking facilities (all carparks assumed to be underground) are assumed to be not more than 5 storeys, except for those subject to other BH restrictions, e.g. from AVA.

(4) As per the GFS Helicopter Landing Site Specification Guidelines, development of sites falling within the flight paths of the helipad at Lo Wu Fire Range will be subject to the GFS's (height restriction) requirement for safety (i.e. Section 5(d) of GFS Helicopter Landing Site Specification Guidelines) (based on the GFS's letter dated 24 May 2011 and the subsequent meeting held on 7 Jun 2011). The proposed number of storeys and building heights of these sites may be subject to further review and liaison with relevant Government departments.

(5) The no. of flats includes that for reprovisioning of Fan Garden Junior Police Officers' Police Married Quarters as well as that for the District Headquarters Associated Married Staff Quarters.

General Notes:

(i) The average flat size of PRH, HOS, CDA, R1, R2 and R3 sites is assumed to be 45, 54, 70 (for CDA, R1 & R2) and 130 sqm respectively.

(ii) The average persons per flat of PRH, HOS, CDA, R1, R2 and R3 sites is assumed to be 2.97, 3.2 and 2.7 (for CDA, R1, R2 and R3) respectively.

D4-1	0.61	6090	G	-	-	-	-	-	-	-	-	-	-	6	Proposed Fanling North Flushing Water Service Reservoir

Note:

(1) A site reduction factor of 83% is applied to sites of commercial and residential uses.

(2) Commercial podium development of R1c & R2c sites is assumed to be not more than 2 storeys.

(3) Free standing non-domestic purpose-built buildings in PRH sites are for retail and carparking facilities (all carparks assumed to be underground) and assumed to be not more than 4 storeys

(4) Due to site constraints, free standing non-domestic purpose-built buildings in this PRH site are assumed to be not more than 5 storeys.

(5) Podium Development may be required to accommodate the PTI which size may need to be adjusted (by forgoing the On-site Non-domestic GFA) subject to further traffic review.

(6) The indicative 2 blocks of 35 storeys buildings of this Site are capable to accommodate the total estimated number of flats with slight modifications of flat size or floor plan in specific floors.

However, as the modification will be minor and insignificant, i.e. one additional flat for each storey of the building with an average number of flats per storey of 16 and a maximum building height of 35 storeys, the building floorprints here are not differentiated from the others.

General Notes:

(i) The average flat size of PRH, HOS, CDA, R1, R2 and R3 sites is assumed to be 45, 54, 70 (for CDA, R1 & R2) and 130 sqm respectively.

(ii) The average persons per flat of PRH, HOS, CDA, R1, R2 and R3 sites is assumed to be 2.97, 3.2 and 2.7 (for CDA, R1, R2 and R3) respectively.
