Dear Sir,

**Notice of Issue of Construction Noise Permit Pursuant to  
Section 8(6) of the Noise Control Ordinance (Cap 400)**

I write to inform you that, under section 8(6) of the Noise Control Ordinance, the Authority has decided to issue a Construction Noise Permit in respect of your application, which was received by the Authority on 17 December 2001, for the use of powered mechanical equipment for carrying out construction work at Castle Peak Road along LRT Railway, Tuen Mun, N.T.

The Construction Noise Permit No. GW-TW0623-01 is enclosed.

You are advised to read the conditions of permit carefully and to ensure compliance with these conditions. Any breaching of the conditions may lead to cancellation of the permit, and the Authority's refusal to issue further permit for the above construction site.

You are also strongly advised to closely liaise with the residents in the vicinity of your construction site, keep them well informed of you night work and explain to them the rationale of doing so. You should set up and publicize a hotline to register and instantly handle any complaint that may arise.

Yours faithfully,

(CHAN Pin-lin, Louis)  
for Authority

Encl.
