## LIST OF APPENDICES

Appendix A	L&V Checklist
------------	---------------

## **1. Introduction**

### **1.1. Background**

1.1.1. Bestwise – Sun Fook Kong Joint Venture (the Contractors) appointed 3NV Technology Limited (3NV) to undertake the Landscape and Visual Monitoring for the Operational Phase of the “Enhancement of Deodourisation System at Stonecutters Island Sewage Treatment Works” (hereafter referred to as “the Project”).

1.1.2. The Project is part of the Harbour Area Treatment Scheme (HATS) Stage 2A. According to Environmental Permit No. EP-322/2008/G issued on 9th May 2014 by the Environmental Protection Department (hereinafter called EPD) to the Drainage Services Department (hereinafter called the DSD) as the Permit Holder and the EM&A Manual for the HATS Stage 2A, all landscape and visual mitigation measures shall be monitored monthly on-site during the first year of the Operational Phase at 8 preliminary treatment works (PTW) and the Stonecutters Island Sewage Treatment Works (SCISTW).

### **1.2. Objectives**

1.2.1. The objective is to monitor and audit the contractor’s landscape works, in particular, to ensure the existing trees retained on-site are being well preserved, tree transplanting and felling operations are being undertaken in accordance with the requirements, procedures, and specifications as stipulated in the contract and the approvals granted by concerned authorities, and all the newly planted vegetations are being maintained properly during the establishment period.

## **2. Landscape and Visual (L&V)**

### **2.1. Monitoring Requirement**

Under the EM&A Manual, Landscape and Visual Monitoring audit should be undertaken during the first year of the Operational Phase to ensure and check that the implementation and maintenance of landscape and visual mitigation measures are carried out by a Registered Landscape Architect (RLA).

### **2.2. Monitoring Frequency**

2.2.1. Site inspections should be undertaken once every month through the first year of the Operational Phase.

### 2.3. Monitoring Locations

2.3.1. Under this Project, there are 8 PTW and SCISTW that should be monitored. The details of the monitoring location are summarized in **Table 1.1**.

**Table 1.1 L&V Monitoring Locations**

No.	Description
1	North Point PTW
2	Wan Chai East PTW
3	Central PTW
4	Sandy Bay PTW
5	Cyberport PTW
6	Wah Fu PTW
7	Aberdeen PTW
8	Ap Lei Chau PTW
9	Stonecutters Island STW

### 2.4. Monitoring Methodology

2.4.1. A Registered Landscape Architect is employed to monitor and audit the contractor's landscape works, in particular, to ensure the existing trees retained on-site are being well preserved, tree transplanting and felling operations are being undertaken in accordance with the requirements, procedures, and specifications as stipulated in the contract and the approvals granted by concerned authorities, and all the newly planted vegetations are being maintained properly during the establishment period by complete a checklist.

### 3. L&V Monitoring Result

#### 3.1. Inspection Result

3.1.1. No new observation was found. One observation from last inspection had been follow up at Central PTW. The completed checklists are shown in **Appendix A**.

#### 3.2. Result Discussion

3.2.1. Generally, all L&V mitigation measures listed in EM&A were applied at 8 PTWs and SCISTW. **Table 3.1** summarized the reminders and new observations of the 8 PTWs and SCISTW.

**Table 3.1 Summary of Reminders and New Observations for the 8 PTWs and SCISTW**

Monitoring Location	Reminders	New Observations
North Point PTW	<ol style="list-style-type: none"> <li>1. Carry out proper maintenance to plantings</li> <li>2. Increase the frequency of watering in the period of dry weather</li> </ol>	N/A

### **L&V Checklist**

**Landscape and Visual Impact Assessment Checklist for Site Audit – North Point PTW**

**Inspection Date:** 28/11/2022

**Weather:** Sunny/~~Fine~~/~~Cloudy~~/~~Rainy~~

**Time:** 9:45

**Wind:** Strong/~~Breeze~~/~~Light~~/~~Calm~~

Item	Description	Yes	No	N/A	Actions / Remarks
<b>1</b>	<b>Aesthetic design of the façade of PTW and associated structures to harmonize with the surrounding settings</b>				
1.1	Is the aesthetic design match the surrounding environment?	✓			
1.2	Are the buildings maintained properly that do not cause any visual impact?	✓			
<b>2</b>	<b>Shrub and Climbing Plants to soften proposed structures / Roof Greening / Vertical Greening</b>				
2.1	Is the roof greening maintained properly?	✓			
2.2	Is the vertical greening maintained properly?			✓	
2.3	Are the Shrub and Climbing Plants free from sign of deterioration of health?	✓			
<b>3</b>	<b>Buffer Tree and Shrub Planting to screen proposed associated structures</b>				
3.1	Are the health of those buffer trees and shrub plantings generally in order?	✓			
3.2	Is all new planting maintained properly to ensure further establishment?	✓			
<b>4</b>	<b>Reinstatement of disturbed area</b>				
4.1	Are the compensated planting covered the disturbed area?	✓			
<b>5</b>	<b>Others</b>				
5.1	Are existing trees retained on-site are being well preserved?	✓			
5.2	Are newly planted vegetations are being generally maintained during the establishment period (12 months)?	✓			

**Summary / Remarks:**

**Follow up action taken by Contractor for previous comments:**

- N/A

**The contractor was reminded to rectify the following:**

- N/A

**New Observation:**

No new observations.

**Reminders:**

1. Contractor was reminded to carry out proper maintenance to plantings and recommended to further increase the frequency of watering in the period of dry weather.

### Landscape and Visual Impact Assessment Checklist for Site Audit – Cyberport PTW

Inspection Date: **28/11/2022**

Weather: Sunny/ Fine/ Cloudy/ Rainy

Time: **10:40**

Wind: Strong/ Breeze/ Light/ Calm

Item	Description	Yes	No	N/A	Actions / Remarks
<b>1</b>	<b>Aesthetic design of the façade of PTW and associated structures to harmonize with the surrounding settings</b>				
1.1	Is the aesthetic design match the surrounding environment?	✓			
1.2	Are the buildings maintained properly that do not cause any visual impact?	✓			
<b>2</b>	<b>Shrub and Climbing Plants to soften proposed structures / Roof Greening / Vertical Greening</b>				
2.1	Is the roof greening maintained properly?	✓			
2.2	Is the vertical greening maintained properly?	✓			
2.3	Are the Shrub and Climbing Plants free from sign of deterioration of health?	✓			
<b>3</b>	<b>Buffer Tree and Shrub Planting to screen proposed associated structures</b>				
3.1	Are the health of those buffer trees and shrub plantings generally in order?	✓			
3.2	Is all new planting maintained properly to ensure further establishment?		✓		Refer to follow up Item No.1 and Rectification Item No.1
<b>4</b>	<b>Reinstatement of disturbed area</b>				
4.1	Are the compensated planting covered the disturbed area?	✓			
<b>5</b>	<b>Others</b>				
5.1	Are existing trees retained on-site are being well preserved?	✓			
5.2	Are newly planted vegetations are being generally maintained during the establishment period (12 months)?	✓			

**Summary / Remarks:**

**Follow up action taken by Contractor for previous comments:**

1. Noticed the dead tree of observation item on 26/09/2022 inside the planting area have been removed (Figures 1 & 2).

**The contractor was reminded to rectify the following:**

1. The contractor is recommended to replant the trees as early as possible for compensating the removal of dead tree

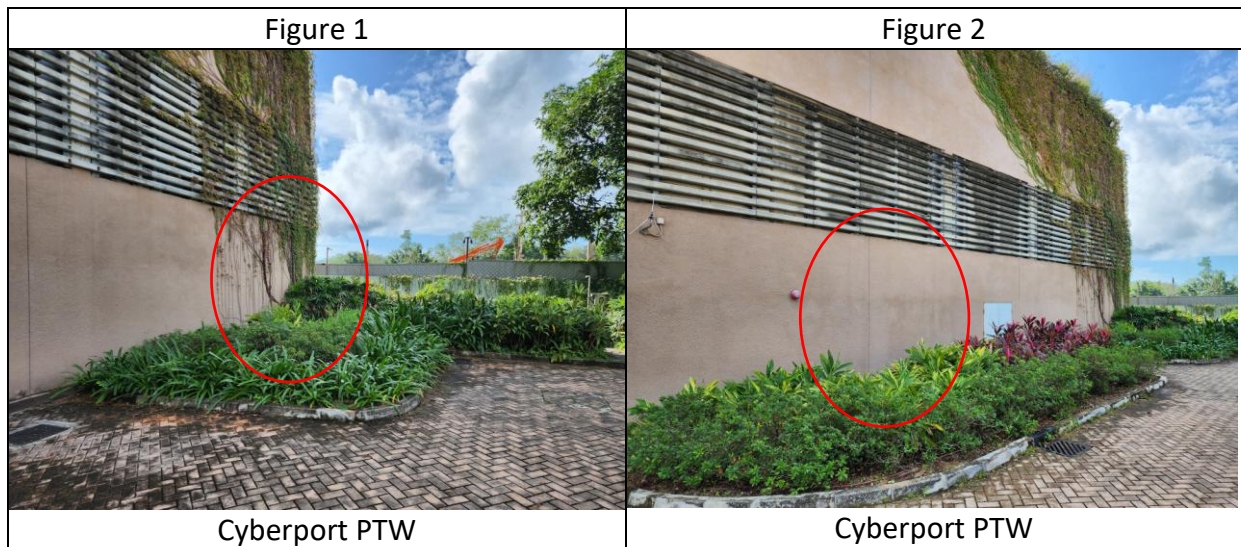

**New Observation:**

No new observations.

**Reminders:**

1. Contractor was reminded to carry out proper maintenance to plantings and was recommended to further increase the frequency of watering in the period of dry weather.
