Proposal for Termination of Dust (CD5) and Noise (CN9-  
CN12) Monitoring Stations at Whampoa Area (East  
Concourse and Wan Hoi Street)

### 1. *Introduction*

Construction dust and noise monitoring stations during the course of construction works are recommended at CD5 and CN9, CN10, CN11 and CN12 for construction works at Whampoa East Concourse and the works site at Wan Hoi Street according to the approved EIA and EM&A manual. The table below shows the dust and noise monitoring stations and their respective monitoring period since the commencement of KTE works.

<b>Monitoring Station</b>	<b>Monitoring Period</b>	<b>Dust Monitoring Station ID</b>	<b>Noise Monitoring Station ID</b>
Fung Kei Millennium Primary School	Jun 2011 to May 2017	CD5	CN11
Block 13, Bauhinia Mansions, Whampoa Garden Site 11	Jun 2011 to May 2017	--	CN9
Block 1, Oak Mansions, Whampoa Garden Site 5	Jun 2011 to May 2017	--	CN10
GCEPSA Whampoa Primary School	Jun 2011 to May 2017	--	CN12

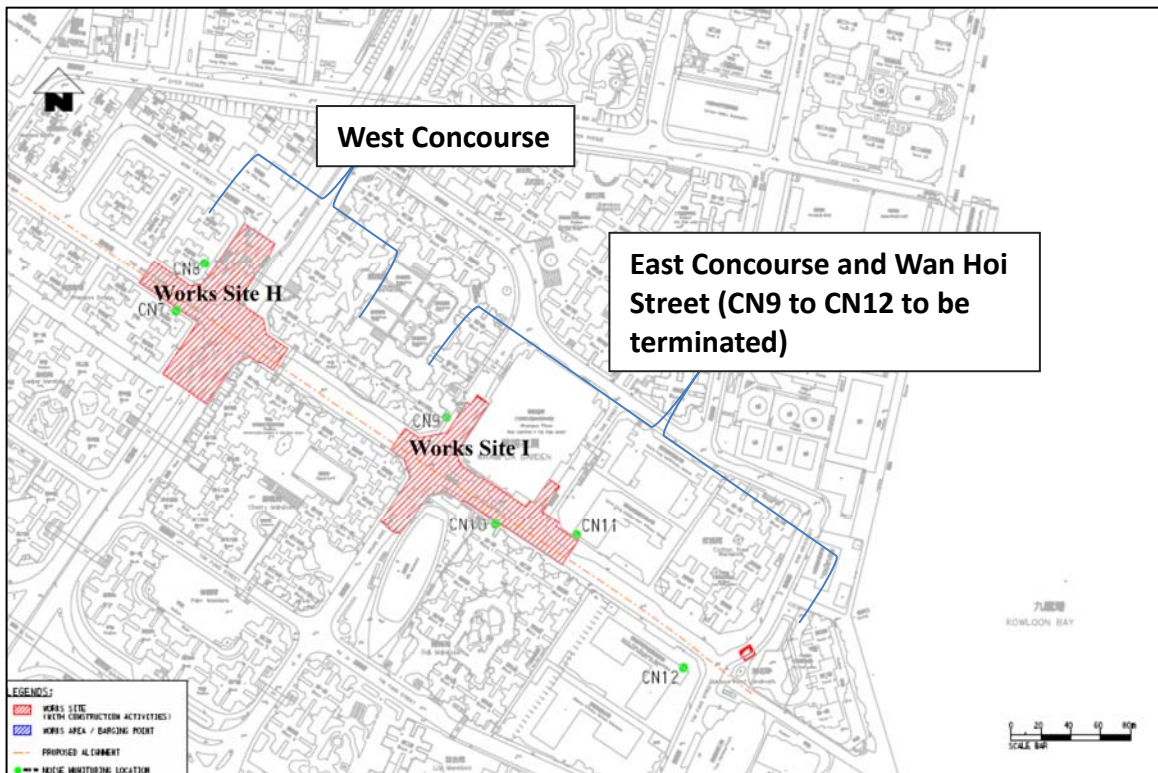

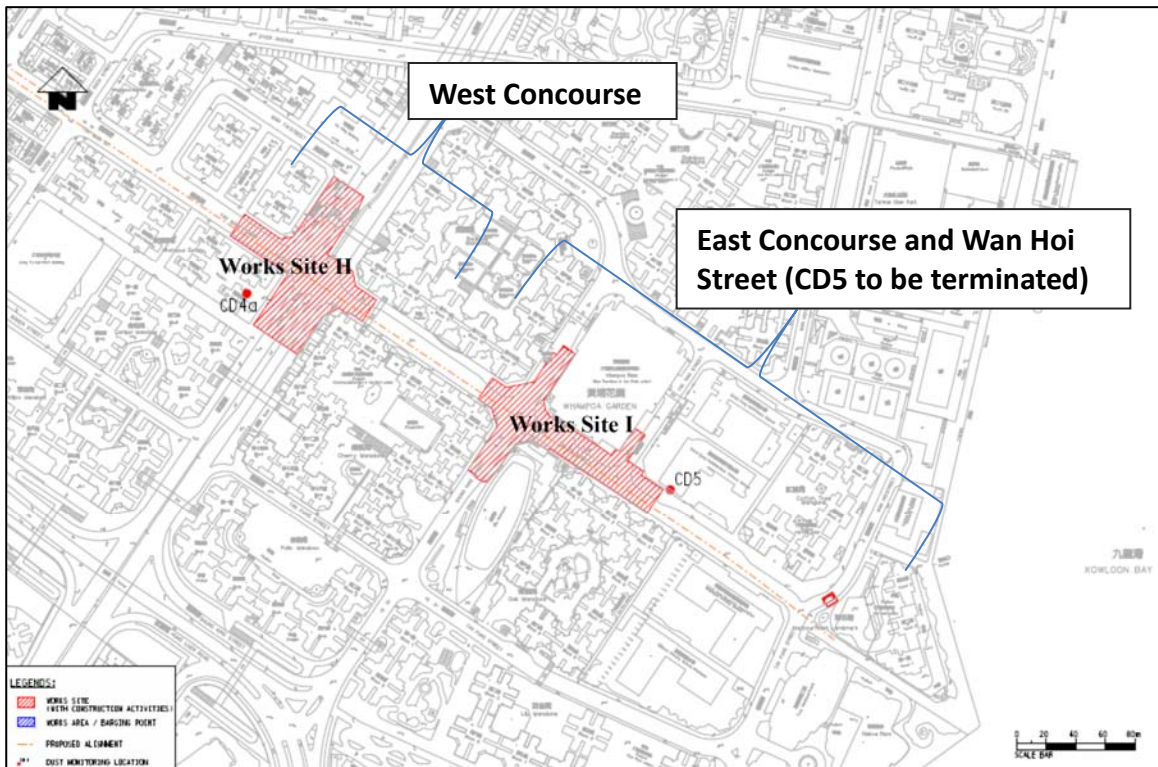

### 2. *Construction Programme*

According to the latest construction programme and site condition, all KTE related construction works at East Concourse and Wan Hoi Street have been completed substantially in May 2017. The road reinstatement works for West Concourse would be completed by Aug / Sep 2017 tentatively. The EM&A works for West Concourse areas would be maintained until works completion.

### 3. *Termination of Dust and Noise Monitoring*

By considering the substantial completion of works at East Concourse and Wan Hoi Street of Whampoa Area, the concerned dust and noise monitoring stations will be terminated starting from 31 May 2017. The location of monitoring stations and the current condition of site could be referred to the location plan and photos below.

*Photo 3.2 Current site condition of East Concourse*

*Photo 3.3 Current site condition of Wan Hoi Street*

The overall trends of the monitored parameters over the course of the construction works at the concerned monitoring stations were shown in the Appendix A.

For the noise monitoring stations (CN9 to CN10), there were several noise exceedance to limit level and residual level recorded with a range of 74 dB(A) to 82 dB(A) in the year of 2012 to 2014 during the piping works and rock excavation works at East Concourse and Wan Hoi Street of Whampoa. Relevant actions have been taken by the Contractors to control the noise impacts in accordance with the recommendations in EIA and EM&A manual. No further noise exceedance was recorded. The exceedance cases were reported in respective EM&A reports in the year of 2012 to 2014.

For the dust monitoring station (CD5), there was one exceedance to the Action Level in 2014. Investigation has been conducted in accordance with the Event and Action Plan of the EM&A manual. The exceedance case was reported in the EM&A report in 2014.

Environmental complaints have been referred from EPD regarding construction works at East Concourse and Wan Hoi Street. Relevant actions have been taken according to the Event and Action Plan and the details of complaints were reported in EM&A reports. All the complaints have been settled accordingly.

No record of summons / prosecutions received in the vicinity of East Concourse and Wan Hoi Street.
