

## 1.5 Construction Programme

**1.5.1** The tentative works programme for the project is shown in **Table 1.3**. This programme is for the information of the ENPO Managers to get an initial idea of the projection of the works. The ENPO Managers should make reference to the actual works progress and programme during the construction stage to schedule the EM&A works, and the Contractors should provide the respective information to the ENPO Managers for formulating the EM&A schedule.
