Parts being constructed:
- Access road and associated slope works
- Vortex chamber and drop shaft

Rise of water level from 72mm to 286mm, no effect to the surrounding area

Intake I-3 – Construction Phase 1
01 Jun 08 to 31 Mar 09

Parts being constructed:
- Modification of existing river bed
- Slope stabilisation works on the western side of the drop shaft

Rise of water level from 80mm to 481mm, no effect to the surrounding area

Intake I-3 – Construction Phase 2
01 Nov 09 to 31 Mar 10

Parts being constructed:
- Modification of existing river bed and construction of approach channel

Rise of water level from 182mm to 437mm, no effect to the surrounding area

Intake I-3 – Construction Phase 3
01 Nov 10 to 15 Mar 11

Legends:

- Flow direction
- Works area
- Existing ground level
- Completed part

Sequencing of Works at Intake I-3
