Figure 13.5  FN Curve for 2011

![Graph showing FN Curve for 2011 with two lines representing 145,000m³ LNG Carriers and 215,000m³ LNG Carriers. The graph compares the frequency of N or more fatalities (per year) against the number of fatalities (N). The lines indicate three levels: Unacceptable (per HK EIAO), Acceptable (per HK EIAO), and ALARP (per HK EIAO).]
