**Dragonfly species and
their abundance in the
Study Area**

Appendix 10.8 Dragonfly species and their abundance in the Study Area.

Common name	Latin name	Abundance	Commonness and distribution
Black-banded Gossamerwing	<i>Euphaea decorata</i>	3	A
Orange-tailed Midget	<i>Agriocnemis femina</i>	6	A
Orange-tailed Sprite	<i>Ceriagrion auranticum</i>	8	A
Common Bluetail	<i>Ischnura senegalensis</i>	6	A
Blue Forest Damselfly	<i>Coeliccia cyanomelas</i>	2	A
Yellow Featherlegs	<i>Copera marginipes</i>	3	A
Fiery Emperor	<i>Anax immaculifrons</i>	1	C
Asian Pintail	<i>Acisoma panorpoides</i>	12	C
Blue Dasher	<i>Brachydiplax chalybea</i>	2	C
Asian Amberwing	<i>Brachythemis contaminata</i>	2	A
Forest Chaser	<i>Lyriothemis elegantissima</i>	2	C
Pied Percher	<i>Neurothemis tullia</i>	1	C
Red-faced Skimmer	<i>Orthetrum chrysis</i>	1	C
Common Blue Skimmer	<i>Orthetrum glaucum</i>	2	A
Marsh Skimmer	<i>Orthetrum luzonicum</i>	1	A
Green Skimmer	<i>Orthetrum sabina</i>	16	C
Wandering Glider	<i>Pantala flavescens</i>	35	A
Blue Chaser	<i>Potamarcha congener</i>	2	C
Pied Skimmer	<i>Pseudothemis zonata</i>	6	C
Variegated Flutterer	<i>Rhyothemis variegata</i>	25	C
Crimson Dropwing	<i>Trithemis aurora</i>	16	A
Indigo Dropwing	<i>Trithemis festiva</i>	6	A
Total dragonflies		158	
Total species		22	

Commonness: A = abundant, C = common
