

Appendix 3.4 - Fauna Recorded within the Assessment Area

Avifauna

Common Name	Scientific Name	Rarity/Conservation Status
Arctic Warbler	<i>Phylloscopus borealis</i>	Uncommon
Black Kite	<i>Milvus migrans</i>	Common (RC)
Blue Magpie	<i>Urocissa erythrorhyncha</i>	Common
Blue Whistling Thrush	<i>Myiophoneus caeruleus</i>	Common
Chinese Bulbul	<i>Pycnonotus sinensis</i>	Common
Collared Scops Owl	<i>Otus lettia</i>	Common
Common Koel	<i>Eudynamys scolopacea</i>	Common
Common Tailorbird	<i>Orthotomus sutorius</i>	Common
Eurasian Tree Sparrow	<i>Passer montanus</i>	Common
Great Tit	<i>Parus major (commixtus)</i>	Common
Greater Coucal	<i>Centropus sinensis</i>	Common
Hwamei	<i>Garrulax canorus</i>	Uncommon
Japanese White Eye	<i>Zosterops japonica (simplex)</i>	Common
Large Hawk Cuckoo	<i>Hierococcyx sparverioides</i>	Uncommon
Large-billed Crow	<i>Corvus macrorhynchos</i>	Common
Masked Laughing Thrush	<i>Garrulax perspicillatus</i>	Common
Oriental Magpie Robin	<i>Copsychus saularis</i>	Common
Pacific Swift	<i>Apus pacificus</i>	Common
Red-billed Leiothrix	<i>Leiothrix lutea</i>	Uncommon
Red-whiskered Bulbul	<i>Pycnonotus jocosus</i>	Common
Rock Dove	<i>Columba livia</i>	Common
Siberian Rubythroat	<i>Luscinia calliope</i>	Common
Silver-eared Mesia	<i>Leiothrix argentauris</i>	Uncommon
Spotted Dove	<i>Streptopelia chinensis</i>	Common
Yellow-crested Cockatoo	<i>Cacatua sulphurea</i>	Common

* RC – Regional Concern (Habitat loss/damage in Hong Kong would pose significant threat to regional survival).

Refer to Fellowes *et al.* (2002) for further explanation of status.

Herpetofauna

Common Name	Scientific Name	Rarity/Conservation Status
Reptiles		
Changeable Lizard	<i>Calotes versicolor</i>	Common and widespread
Amphibians		
Lesser Spiny Frog	<i>Paa exilispinosa</i>	Common and widespread (PGC)
Hong Kong Cascade Frog	<i>Amolops hongkongensis</i>	Uncommon (PGC)
Green Cascade Frog	<i>Rana livida</i>	Common and widespread
Asian Common Toad	<i>Bufo melanostictus</i>	Common and widespread

* PGC – Potential Global Concern (Large, secure populations in Hong Kong are of global significance).

Refer to Fellowes *et al.* (2002) for further explanation of status.

Terrestrial Insect

Common Name	Scientific Name	Rarity/Conservation Status
Dragonflies		
Wandering Glider	<i>Pantala flavescens</i>	Very common
Butterflies		
Indian Cabbage White	<i>Pieris canidia</i>	Common
Red Helen	<i>Papilio helenus</i>	Common
Paris Peacock	<i>Papilio paris</i>	Common
Spangle	<i>Papilio protenor</i>	Common
Dark Brand Bush Brown	<i>Mycalesis mineus</i>	Common
Large Faun	<i>Faunis eumeus</i>	Common
Blue Tiger	<i>Tirumala limniace</i>	Common

Freshwater Community

Taxa	Eastern Stream	Western Stream
Gastropoda		
<i>Radix plicatulus</i>	x	x
<i>Biomphalaria straminea</i>	x	x
Hemiptera		
<i>Buena sp.</i>	x	x
<i>Notomecta sp.</i>		x
Odonata		
<i>Ophiogomphus sinicus</i>	x	x
Diptera		
Chironomidae	x	x
Anura		
<i>Amolops hongkongensis</i> (tadpole)	x	x
Total Taxa	6	7
