

APPENDIX 10.4

**Dragonfly Recorded in
the Study Area**

Common Name	Latin Name	UD	AL	W	MS	S	Cu	GS	Commonness
Common Bluetail	<i>Ischnura senegalensis</i>		18			16	1		A
Orange-tailed Sprite	<i>Ceragrion auranticum</i>		2			2		1	A
Black-banded Gossamerwing	<i>Euphaea decorata</i>					3			A
Yellow Featherlegs	<i>Copera marginipes</i>					4			A
Black Threadtail	<i>Prodasineura autumnalis</i>					2			A
Lesser Emperor	<i>Anax parthenope</i>					1	1		C
Lesser Blue Skimmer	<i>Orthetrum triangulare</i>		1			1			C
Green Skimmer	<i>Orthetrum sabina</i>		2			3			C
Pied Skimmer	<i>Pseudothemis zonata</i>					1			C
Wandering Glider	<i>Pantala flavescens</i>	2		5	6	12		2	A
Crimson Dropwing	<i>Trithemis aurora</i>		1			1			A
Indigo Dropwing	<i>Trithemis festiva</i>					4			A
Emerald Cascader	<i>Zygonyx iris</i>					1			A
Total dragonflies		2	24	5	6	51	2	3	
Total species		1	5	1	1	13	2	2	

Commonness: A = abundant, C = common

Habitats: UD = urbanized/disturbed, AL = ash lagoon, W = natural woodland, plantation woodland, MS = mangroves/mudflat, S = stream, Cu = orchard/village and fishpond, GS = grassland/shrubland
