

- Extent of dive survey :**
1. Along east coast of Airport Island.
  2. Near Sha Lo Wan Headland.
  3. At pier site nearest to intertidal zone.

**Note :** Pre-construction dive survey for about 2-3 weeks will be conducted, prior to marine construction works in these three locations, to identify any coral colonies suitable for translocation, taking into account the conservation value, the health status and the translocation feasibility.
