

HKLR towards Chek Lap Kok Channel  
and HK International Airport

Development with Mitigation (Day 1 and Year 10 of Operation Phase)

Note:

Some urban design elements of HKLR, e.g. aesthetic structural forms of parapets, soffits, columns, railings, decorative road lightings and so on should be considered during detailed design stage in order to enhance the appearance of HKLR visually.

Transition of colour tones  
to make the bridge deck  
and column slimmer
