

HKLR towards Chek Lap Kok Channel and HK International Airport

Development with Mitigation (Day 1 and Year 10 of Operational Phase)

Note:  
Some urban design elements of HKLR, e.g. aesthetic structural forms of parapets, soffits, columns, railings, decorative road lightings and so on should be considered during detailed design stage in order to enhance the appearance of HKLR visually.

Transition of colour tones to make the bridge deck and column slimmer
