

SS (mg/L) 828 823 815 Dolphin Density (DPSE) SS at mid-depth 813 830 500m envelope from Site 823 SS at surface level SS at bottom level 816 810 812 814

A) 2002-08 DPSE Density of Chinese White Dolphins

B) Unmitigated Scenario

Note: The contour shows the predicted highest SS concentration over the whole simulation period and such a level may only be predicted for a very short period of time.
