

SS (mg/L) □ < 2.0
</p> 828 815 Dolphin Density (DPSE) SS at mid-depth 813 830 500m envelope from Site SS at surface level SS at bottom level 810 812 814

A) 2002-08 DPSE Density of Chinese White Dolphins

B) After mitigation with (1+1) silt curtain system

Note: The contour shows the predicted highest SS concentration over the whole simulation period and such a level may only be predicted for a very short period of time.
