

Reclamation area to receive M_f (Area = 4 ha)

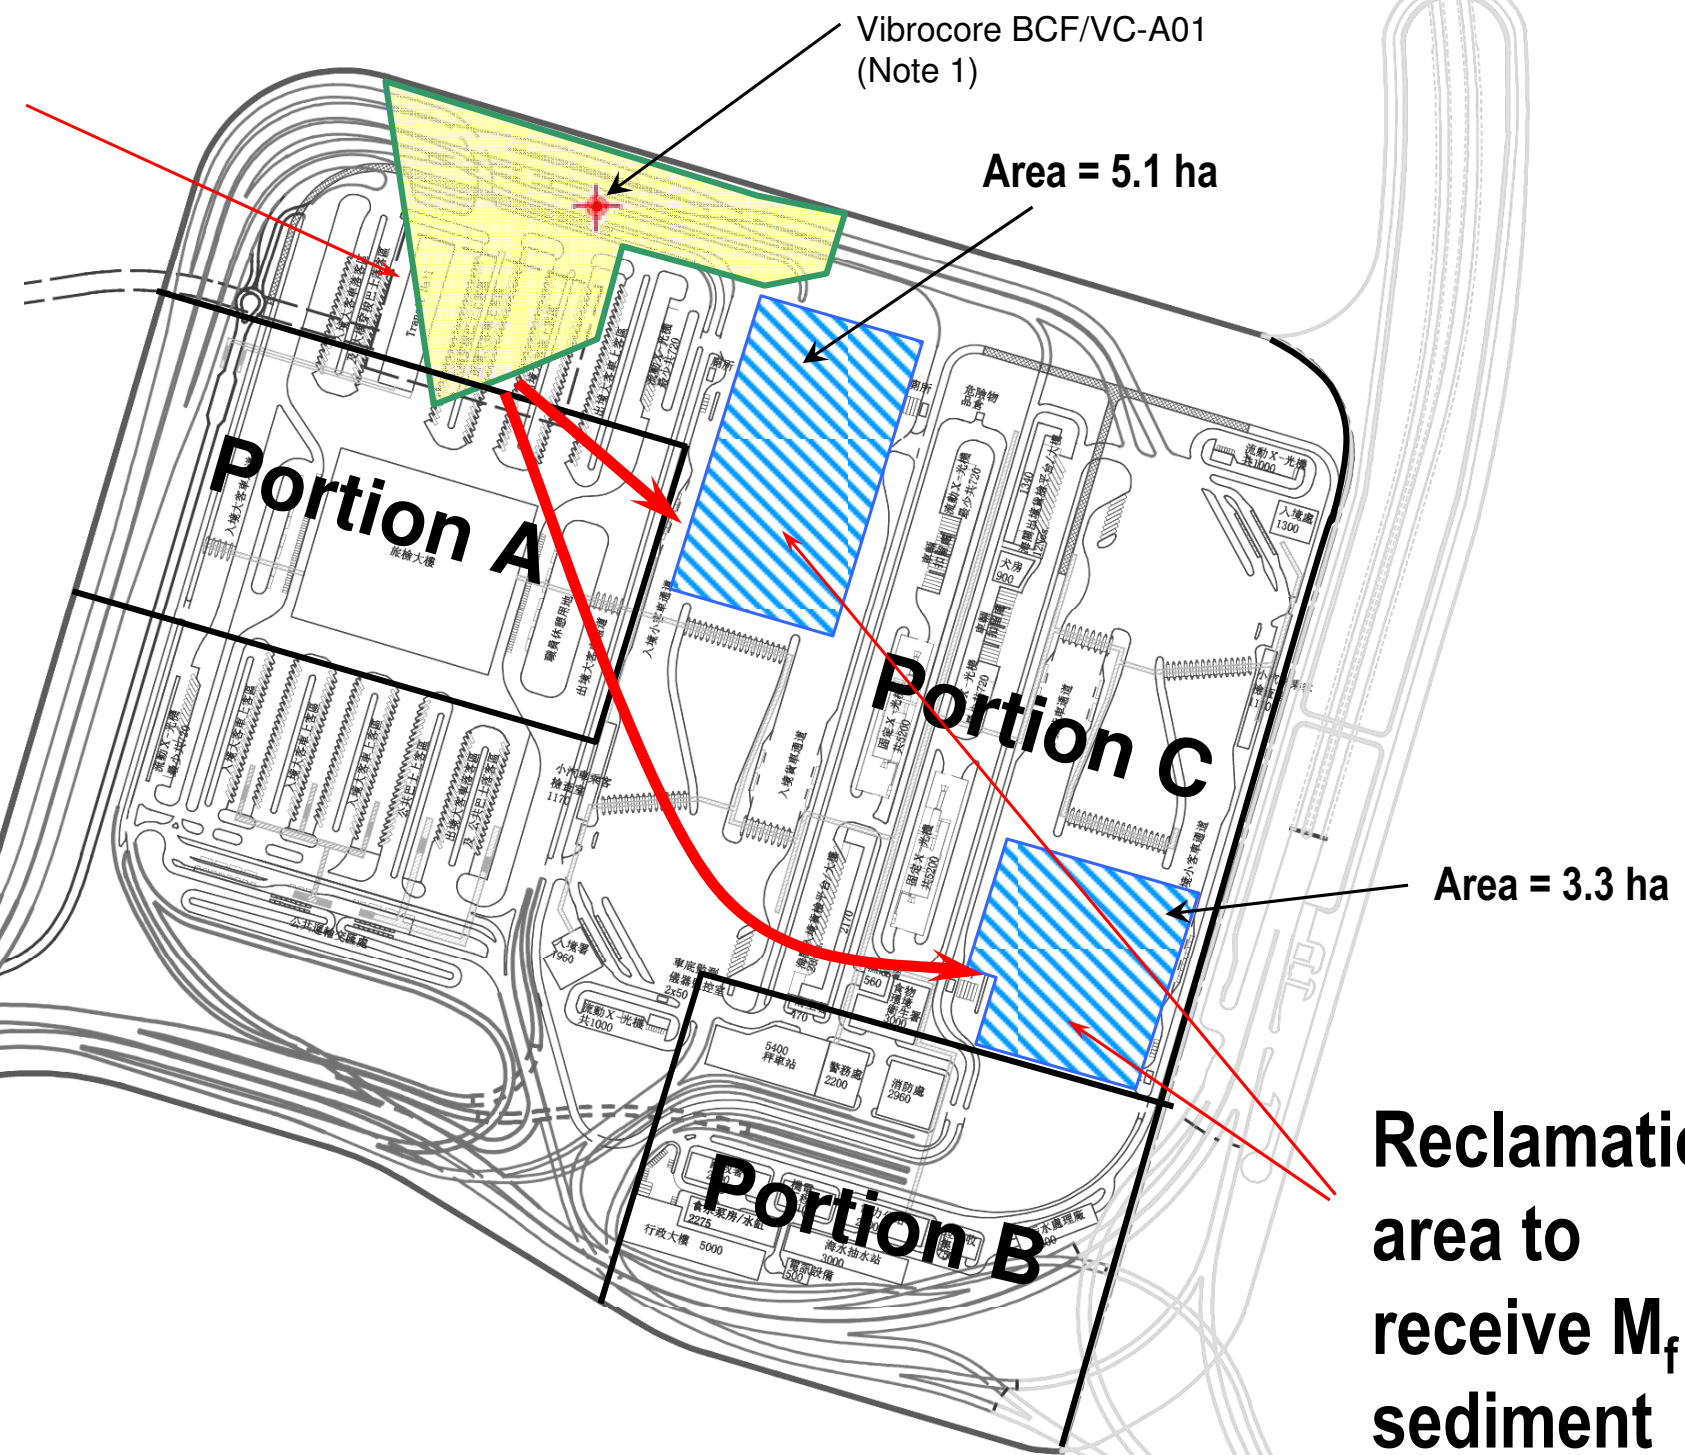

Grab sample D3 (Note 1)

M_f from reclamation = 0.26 Mm^3 (bulk volume)

M_f from pilling = 0.07 Mm^3 (bulk volume)

Note1:
Elutriate test result of sample obtained from grab sample D3 at the depth of 9.9m to 10.8m is used for assessing the effect of depositing M_f Sediment to the water sensitive receivers

M_f sediment to be dredged = 0.35 Mm³ (bulk volume)

Portion D

Portion A

Portion C

Portion B

Note1:
 Elutriate test result of sample obtained from Vibrocore BCF/VC-A01 at the depth of 9.9m to 10.8m is used for assessing the effect of depositing M_f Sediment to the water sensitive receivers
