A. TM-CLKL Northern Reclamation																																													
10	Area	Item																																											
1	Portion N-c	Mobilisation and preparation																																											
2		Seawall dredging and reclamation																																											
3		Seawall filling (50% rock, 50% PF)																																											
4		Construct seawall																																											
5		Reclamation dredging (PF)																																											
6		Reclamation filling (above +2.5mPD)																																											
7	Portion N-a and N-b	Mobilisation and preparation																																											
8		Seawall dredging																																											
9		Seawall filling (50% rock, 50% PF)																																											
10		Construct seawall																																											
11		Reclamation dredging - not required																																											
12		Reclamation filling (PF)																																											
13		Reclamation filling (above +2.5mPD)																																											
14		Total Daily Production Rate																																											
B. TM-CLKL Southern Reclamation																																													
15	Area	Item																																											
16	Portion S-a	Mobilisation and preparation																																											
17		Seawall dredging and reclamation																																											
18		Seawall filling (50% rock, 50% PF)																																											
19		Construct seawall																																											
20		Reclamation dredging (70% sand, 30% PF)																																											
21		Reclamation filling (above +2.5mPD)																																											
22	Portion S-b	Plant mobilisation																																											
23		Seawall dredging																																											
24		Seawall filling (50% rock, 50% PF)																																											
25		Construct seawall																																											
26		Reclamation dredging - not required																																											
27		Reclamation filling (70% sand, 30% PF)																																											
28		Reclamation filling (above +2.5mPD)																																											
29	Portion S-c	Mobilisation and preparation																																											
30		Dredging for seawall																																											
31		Seawall filling (50% rock, 50% PF)																																											
32		Construct seawall																																											
33		Reclamation dredging - not required																																											
34		Reclamation filling (70% sand, 30% PF)																																											
35		Reclamation filling (above +2.5mPD)																																											
36	Viaduct	Piling & Pile Cap Construction																																											
37		Total Daily Production Rate																																											
C. HKBCF																																													
38	Area	Item																																											
39	Phase 1 - Portion A	Mobilisation and preparation																																											
40		Seawall dredging (Portion A)																																											
41		Seawall filling (Portion A)																																											
42		Reclamation dredging (Portion A)																																											
43		Reclamation filling (Portion A)																																											
44	Phase 1 - Portion B	Seawall dredging (Portion B)																																											
45		Seawall filling (Portion B)																																											
46		Reclamation dredging (Portion B)																																											
47		Reclamation filling (Portion B)																																											
48	Phase 1 - Portion C	Seawall dredging (Portion C)																																											
49		Seawall filling (Portion C)																																											
50		Reclamation dredging (Portion C) - not required																																											
51		Reclamation filling (Portion C)																																											
52	Phase 1 - Portion D	Seawall dredging (Portion D)																																											
53		Seawall filling (Portion D)																																											
54		Reclamation dredging (Portion D)																																											
55		Reclamation filling (Portion D)																																											
56	Phase 2	Seawall dredging																																											
57		Seawall filling																																											
58		Reclamation dredging																																											
59		Reclamation filling																																											
60		Install sheet piles																																											
61	Pits for M sediment	Dredging to form the M pits																																											
62		Redeposition of M sediments within the pits																																											
63		Remove sheet pile after capping by sandfill																																											
64	APM & FSD berth	Dredging for seawall and reclamation (FSD)																																											
65		Seawall filling (FSD)																																											
66		Reclamation filling (FSD)																																											
67		Dredging for APM by IMT method																																											
68		Filling for APM after installation to IMT																																											
69		Total Daily Production Rate																																											
D. HKLR																																													
70	Area	Item																																											
71	Portion 1	Mobilisation and preparation																																											
72		Seawall dredging																																											
73		Seawall filling																																											
74		Reclamation dredging																																											
75		Reclamation filling																																											
76	Portion 2 & 3	Dredging for seawall and reclamation																																											
77		Filling for seawall and reclamation																																											
78	Viaduct in western open sea	Piling & Pile Cap Construction (Portion A)																																											
79		Piling & Pile Cap Construction (Portion B)																																											
80		Piling & Pile Cap Construction (Portion C)																																											
81		Install sheet piles																																											
82	Pits for M sediment	Dredging to form the M pits																																											
83		Redeposition of M sediments within the pits																																											
84		Remove sheet pile after capping by sandfill																																											
85	Viaduct at Airport Channel	Piling & Pile Cap Construction (Portion 1)																																											
86		Piling & Pile Cap Construction (Portion 2)																																											
87		Piling & Pile Cap Construction (Portion 3)																																											
88		(No marine works)																																											
89		Piling & Pile Cap Construction (Portion 4)																																											
90		(No marine works)																																											
91		Piling & Pile Cap Construction (Portion 5)																																											
92		(No marine works)																																											
93		Superstructure, roadworks & E&M works																																											
94		Total Daily Production Rate																																											
E. Project Summary																																													
95	Area	Time																																											
96	TM-CLKL North	TM-CLKL North																																											
97	TM-CLKL South	TM-CLKL South																																											
98	HKBCF	HKBCF																																											
99	HKLR	HKLR																																											
100	All 3 Pits	All 3 Pits																																											
F. Summary of Project Activities																																													
101	Area	Max rate																																											
102	TM-CLKL North	Dredging																																											
103		Filling																																											
104	TM-CLKL South	Dredging																																											
105		Filling																																											
106	HKBCF	Dredging																																											
107		Filling																																											
108	HKLR	Dredging																																											
109		Filling																																											
Remark: Works items (2) and (7) include a TSHD; Table F exclude the quantity for viaduct bored piling works.																																													

Overall Programme for TM-CLKL + HKBCF + HKLR - Maximum Daily Production Rate (bulked volume, m3/day) (Sequence A)
