Notes

- (1) For each stage of construction activities, the site area with the highest total percentage active area was chosen to get a conservative estimate.
- (2) The Daily and Hourly Maximum Percentage Active Area is the maximum of the total percentage active areas for all construction stages under each two-week period.
- (3) The Moving Yearly Average Percentage Active Area is the average of the total percentage active areas over a moving 12-month period.
- (4) The Maximum Yearly Percentage Active Area is the maximum of the Moving Yearly Average percentage Active Areas.
