20 January 2014

**BY FAX: 2827 1823**

Dear Sir,

**Expansion of Hong Kong International Airport into a Three Runway System -  
 Environmental Impact Assessment Study**

**Request for Approval on Rationale for Sediment Removal and Provisional Allocation of  
 Space for Disposal of Marine Sediments from Excavation – Supplementary Information**

We refer to your letter dated 16 January 2014.

2. We have no further comments on the rationale for sediment removal for the above project.
3. Given that the estimated quantity of marine sediment is approximately 10,200 m<sup>3</sup> (comprising 50% Cat L and 50% Cat Mp), we shall reserve adequate space for the disposal of the sediment stemming from the above project until end 2016.
4. We await your advice on the classification of sediment before we can proceed further to the allocation of marine disposal space.

Yours faithfully,

(Derek Lau)

Dear Sir,

**Expansion of Hong Kong International Airport into a Three Runway System -  
Environmental Impact Assessment Study  
Request for Approval on Rationale for Sediment Removal and Provisional Allocation of  
Space for Disposal of Marine Sediments from Excavation – Supplementary Information**

Further to your above-referenced letter dated 13 January 2014, we would like to confirm the sediment quantity of around 10,200m<sup>3</sup> to be excavated from the field joint area for the diversion of existing submarine 11 kV cable is all the sediment to be generated from the captioned project that will require space for off-site marine disposal.

Should you have any queries, please do not hesitate to contact our Mr. Eric Ching at 2828 5825 or Mr. Terence Kong at 2828 5919.

Yours faithfully,  
MOTT MACDONALD HONG KONG LIMITED
