<i>Tridentiger trigonocephalus</i>	Chameleon goby	C	-	TH, TC
<i>Tylosurus strongylurus</i>	Spottail needlefish	C	-	TH, SW

Note:

Status: C = Common, Un = Uncommon, R = Rare (based on AFCD biodiversity database, Lee *et al.*, 2004 and To *et al.*, 2013)

Conservation status: RC = Regional concern, LC = Local concern (Fellowes *et al.*, 2002)

CSRL: EN = Endangered, VU = Vulnerable, NT = Near Threatened, LC = Least Concern

IUCN: EN = Endangered, VU = Vulnerable, NT = Near Threatened, LR = Lower Risk, LC = Least Concern, DD = Data Deficient.

IUCN status including Data Deficient and Least Concern were presented if available to illustrate the species' global situation but species with these two status were not considered to be of conservation importance.
