

Common names	Scientific names	W	P	O	A	U/D	S	M	Commonness	Protection status / Level of concern
Hong Kong Newt ¹	<i>Paramesotriton hongkongensis</i>						+		Common	Cap (170) IUCN (2015): Near Threatened, Fellowes <i>et al.</i> (2002): Potential Global Concern
Asian Common Toad	<i>Bufo melanostictus</i>	+	+	+		+	++		Very common	
Short-legged Toad ^{1,2}	<i>Xenophrys brachykolos</i>	+							Locally common in scattered locations	IUCN (2015): Endangered, Fellowes <i>et al.</i> (2002): Potential Global Concern
Paddy Frog	<i>Fejervarya limnocharis</i>			+	+		+		Very common	
Chinese Bullfrog ¹	<i>Hoplobatrachus chinensis</i>	+		+					Common	Class 2 Protected Animal of China; Fellowes <i>et al.</i> (2002): Potential Regional Concern
Gunther's Frog	<i>Rana guentheri</i>		+		+		+++	+	Very common	
Asiatic Painted Frog	<i>Kaloula pulchra</i>	+	+	++	+	+	+		Common	
Marbled Pigmy Frog	<i>Microhyla pulchra</i>			+					Common	
Brown Tree Frog	<i>Polypedates megacephalus</i>	+	+		+		+		Very common	
Lesser Spiny Frog ¹	<i>Paa exilispinosa</i>						++		Common	IUCN (2015) : vulnerable; Fellowes <i>et al.</i> (2002): Potential Global Concern
Romer's Tree Frog ¹	<i>Liuixalus romeri</i>	+		++		+			Locally common in scattered locations	Cap (170) , IUCN (2015): endangered; Fellowes <i>et al.</i> (2002): Potential Global Concern

Note:

Habitats: W = woodland, P = plantation, O = orchard, A = Abandoned agricultural land (wet and dry), U/D = urbanised/disturbed, S = watercourse, M = mangroves & reedbed,

Abundance: + = low, ++ = moderate, +++ = many

¹ = species of conservation importance

² = recorded outside Assessment Area
