VSR 29 Photomontage- with mitigation at Day 1

VSR 29 Photomontage- with mitigation at Year 10

Description:

by the intervening village buildings in Pak Mong Village, only a small extent of TMCLKL would be noticeable with the mitigation measures including screen planting and maximising greening on structures. The

Note:
1. The photomontages have been generated to provide a preliminary idea on the scale and extent of the proposed development. These images will be subject to change and are for illustrative purposes only. Built form demonstrates scale and massing only, it does not represent architectural design, finishes or any other related detailed design

• This VSR represents residents of Pak Mong Villages, visitors and hikers along the designated trail. The VSRs would mainly experience views towards the proposed TCE with TMCLKL. As a result of blockage built form of the proposed development will be soften and compatible with the receiving landscape. Hence, the potential visual impact will be reduced.
