Note:

The above works programme is tentatively scheduled for construction works at each lane of the road alignment. (e.g. Work Fronts 1 refers to sites 1A,1B and 1C(if any) as shown in Figure 2.5a)

Construction activity Groups A, B and C will be conducted at all the works sites

ELS works (Group D) will be conducted at works sites as shown in Figure 2.5a-q.

Either construction activity Group E or Group F will be carried at the works sites of foundation/geotechnical works as shown in Figure 2.5a-q.

Noise mitigation works (Group G) will only be carried out at the works sites of proposed noise barrier as shown in Figure 2.5a-q.
