Subject: New Acute Hospital (NAH) Helipad EIA - Cumulative Emission Source

Dear Duncan,

As discussed over the phone earlier, we are the environmental consultant of Hospital Authority for conducting Environmental Impact Assessment of the proposed helipad at NAH, the confirmation letter is attached for your reference. In order to assess the cumulative air quality impact within our 500m assessment area (as attached in Figure 3.1), we would like to know the programme and the operation details of the proposed barging point under the Trunk Road T2 project for our further assessment.

Feel free to contact me if have any queries.

Best regards,

WK Chiu
