

# SHENZHEN ENVIRONMENTAL PRINTED CIRCUIT BOARD COMPANY

## Environmental Policy

Shenzhen Environmental Printed Circuit Board Company Ltd. is an experienced factory specialising in printed circuit board manufacturing. Since the establishment, we have been with the concept of quality service and protecting the environment to meet the diverse needs. We promise to minimise waste generation, reuse and recycle the resources.

What we commit:

- 1) Establish a comprehensive environmental management system and examine environmental issues to prevent pollution and continually improve our system of management.
- 2) Conform to all applicable legal requirements and other requirements to which the Company subscribes which relate to its environmental aspects.
- 3) Improve the environmental awareness of all our employees through environmental education and awareness-raising activities.
- 4) Reduce adverse environmental impacts due to company's operation activities.
- 5) Use resources effectively, and encourage closing the loop in product life cycle through recycling and reusing.
- 6) Disclose information to promote better public understanding of the SZEPCB's environmental management, and to create good communication with customers and communities at the local and international levels.

We make relentless effort into making outsiders and related groups realise our keen attempt on environmental protection.
