**Expansion of Hong Kong International Airport into a Three-Runway System
(Environmental Permit No. EP-489/2014)**

***Submission of Marine Travel Routes and Management Plan for High Speed
Ferries of SkyPier***

- 2.10 The Permit Holder shall, no later than 3 months before the commencement of construction of the Project, submit 3 hard copies and 1 electronic copy of Marine Travel Routes and Management Plan (The Plan) for high speed ferries (HSF) of the SkyPier, to the Director for approval. The Plan shall include the imposition of a speed limit within Hong Kong waters which are hotspots of the CWD during the construction phase so as to minimize chances of collision and disturbance to the CWD, and to cap the number of SkyPier HSF at the current level of operation (i.e. an annual daily average of 99) prior to designation of the proposed marine park. The Plan shall also explore the feasibility of imposing a daily cap on the number of HSF leaving the SkyPier and imposing further speed restriction at different spots along the marine routes after detailed study.

The Permit Holder shall submit The Plan to the ACE for comment prior to the submission to the Director for approval.
