

EPD will upgrade 100 EV standard chargers to medium chargers  
at government car parks

To enhance EV charging facilities, EPD has appointed a contractor to replace 100 sets of EV standard chargers to medium chargers at seven government car parks managed by Transport Department and Government Property Agency, i.e. City Hall Car Park, Tin Hau Car Park, Shau Kei Wan Car Park, Sheung Fung Street Car Park, Tsuen Wan Car Park, Rumsey Street Car Park and Cheung Sha Wan Government Offices. 100 sets of smart meters will also be installed at these car parks.

The contractor commenced the work on 31 October 2016. The upgrading work is anticipated to be completed by 31 March 2017. Upon completion, the total number of medium chargers at government car parks will increase to 200.
