

EPD has upgraded 96 electric vehicle standard chargers to medium chargers
at the Government car parks in February 2018

To enhance electric vehicle (EV) charging facilities, EPD has appointed a contractor to replace 96 EV standard chargers to medium chargers and install 96 sets of smart meters at seven Government car parks (namely Queensway Government Offices, North Point Government Offices, Sai Kung Government Offices, Shatin Government Offices, North District Government Offices, Rumsey Street Car Park and Wanchai Tower and Immigration Tower) being managed by the Transport Department and the Government Property Agency. The work was completed in February 2018.

Including the 96 newly upgraded medium chargers, there is a total of 364 medium chargers installed at Government car parks being managed by the Transport Department and the Government Property Agency.

Location and number of newly upgraded charger at the Government car parks
