Note to Applicant

1. The master, the owner or the agent of a vessel may apply to the Environmental Protection Department (the EPD) for an exemption from the application of section 5(1) of the Air Pollution Control (Fuel for Vessels) Regulation (Cap 311AB) by using technology that can reduce SO₂ emission in the vessel.
2. An exemption may be granted only if the vessel uses technology that can achieve the reduction of SO₂ emission at least as effectively as the use of fuel with sulphur content not exceeding 0.5% when the vessel is in the waters of Hong Kong.
3. A new application for an exemption must be made at least 14 days before the date on which the first exempted stay period to which the application relates is intended to commence.
4. A renewal application for an exemption must be made not earlier than 3 months before, and not later than 14 days before, the date on which the exemption expires.
5. An exemption may be granted or renewed subject to any conditions the EPD thinks fit. The EPD may impose any appropriate conditions to the granted or renewed exemption at any time.
6. An exemption may be granted for maximum 3 years. An exemption may be renewed for maximum 3 years each time.
7. For timely processing of the application, the applicant shall duly complete the application form and submit all necessary supporting documents for the application.
8. The EPD may request the applicant to submit further information or documents for processing the application within 14 working days after receipt of the application.
9. If the applicant fails to submit the necessary supporting information or documents, the application will not be processed further.
