

APPENDIX H

APPENDIX H

ECOLOGY

E1. Extent of Wetland Depletion (hectares)

From the plans of the six Hybrid Options, it has been found that no new land will be formed on areas designated as wetlands. This criterion plays no part in the overall evaluation of the options.

E2. Volumes of Dredged Contaminated Spoil Requiring Off-Site Disposal

Location	2001 (A)	2001 (B)	2006 (A)	2006 (B)	2011 (A)	2011 (B)
METRO						
NWNT						
NENT						
SENT	-	-	-	-	-	100ha of additional reclamation possibly requiring dredging of contaminated mud
SWNT	-	-	-	-	-	-

E3. Developments in or Adjacent to Sensitive Receivers
