# QUALITY ASSURANCE

MEMCL is committed to provide to our clients the most responsive and professional environmental consulting services in Asia.

It is the Company's objective to provide services which meet the required specification and are produced on time in a cost-effective manner.

In pursuit of these objectives, the Directors have implemented Quality Systems which have achieved Third Party Certification to BS EN ISO 9001:1994 Standard. All employees of the Company have a responsibility for quality.

The quality procedures are under continual review by Senior Management to ensure that the changing needs of the Company's Clients are met.

<b>REPORT NO.</b>	<u>1511</u>
<b>STATUS</b>	<u>Final</u>
<b>DATE OF ISSUE</b>	<u>5 October 1999</u>
<b>APPROVED BY</b>	<u><i>T. J. Cramp</i></u>

(Director)

**REMARKS:**

The information supplied and contained within this report is, to the best of our knowledge, correct at the time of printing. Where information has been supplied by third parties, such information is reproduced here in good faith and MEMCL accepts no responsibility for the accuracy of the supplied information.

MEMCL accepts no responsibility for changes made to this report by third parties.

## CONTENTS

1	INTRODUCTION.....	1
1.1	BACKGROUND .....	1
1.2	REQUIREMENTS OF THE STUDY.....	1
1.3	STRUCTURE OF THE REPORT .....	2
2	STUDY METHODOLOGY .....	3
2.1	NOISE SENSITIVE RECEIVERS.....	3
2.2	DIRECT TECHNICAL REMEDIES.....	3
2.3	ASSESSMENT METHODOLOGY .....	3
2.4	KEY ISSUES.....	5
3	FINDINGS OF THE REVIEW STUDY .....	6
3.1	DESK-TOP STUDY.....	6
3.2	PRELIMINARY EVALUATION OF ENGINEERING FEASIBILITY .....	7
4	COST ESTIMATE.....	13
4.1	UNIT COST.....	13
4.2	TOTAL COST.....	13
5	PRIORITIZATION OF NOISE MITIGATION WORKS PROGRAMME .....	15
6	CONCLUSIONS .....	16
6.1	RESULTS AND FINDINGS .....	16
6.2	EVALUATION OF THE WORKING TOOL .....	16
7	RECOMMENDATIONS.....	17
7.1	WORKING TOOLS.....	17
7.2	RECOMMENDATIONS FOR FURTHER STUDY .....	17

## FIGURES

### APPENDIX A SUMMARY OF ROADS EXCLUDED IN THIS STUDY

### APPENDIX B DATABASE OF THE FINDINGS IN THIS STUDY

## LIST OF TABLES

Table 3.1 – Roads/Road Sections Recommended for Further Study .....	1
Table 3.2 – Noise Reduction and Number of Dwellings Being Benefited.....	12
Table 4.1 – Unit Construction Cost at December 1996 Prices for Barriers/Enclosures per Linear Metre .....	13
Table 4.2 – Noise Reduction and Number of Dwellings Being Protected .....	14
Table 5.1 – Prioritization of Noise Mitigation Works Programme .....	15
Table 5.2 – Preliminary Works Programme for Implementation of Noise Mitigation Works.....	16

## LIST OF FIGURES

- Figure 2.1 Simplified Assessment Procedures
- Figure 2.2 Chart 1 – Identification of Problems
- Figure 2.3 Chart 2 – Selection of Barrier Forms
- Figure 2.4 Chart 3 – Emergency Access Considerations
- Figure 2.5 Chart 4 – Road Safety Considerations
- Figure 2.6 Chart 5 – Socio-economic Considerations
- Figure 2.7 Chart 6 – Land Availability
- Figure 2.8 Chart 7 – Acoustic Effectiveness
- Figure 2.9 Visibility Splays at Priority Junctions
- Figure 2.10 Visibility Area at Run-ins
- Figure 2.11 Grade Separated Interchange
- Figure 2.12 Sight Distance
- Figure 2.13 Visibility at Roundabout
- Figure 2.14 Typical 3-metre Vertical Barrier
- Figure 2.15 Typical 4-metre Vertical Barrier
- Figure 2.16 Typical 5-metre Vertical Barrier
