

Waste Diversion Plan Radio API (Nov 2015)

English script:

From January 6, 2016, the South East New Territories Landfill will no longer accept domestic, commercial and industrial waste. Waste collectors have to change routes and deliver waste to refuse transfer stations at a fee or other landfills. They should talk with property owners or management companies to revise collection times and fees as soon as possible.

For enquiries, please contact the Environmental Protection Department at 2872 1727.
